# THE HONG KONG INSTITUTE OF SURVEYORS

The Hong Kong Institute of Surveyors (HKIS or The Institute) was founded in April 1984 and had 85 founding members. The Institute was statutorily incorporated by virtue of the Hong Kong Institute of Surveyors Ordinance in January 1990 (Cap. 1148). In July 1991, the Surveyors Registration Ordinance (Cap. 417) was passed to set up a Registration Board to administer the registration of surveyors.

The number of Corporate Members has grown to 7,210 as at 31 December 2020; Members and Fellows – distinguished by the initials MHKIS and FHKIS. In 2020, the Institute admitted 73 Associate Members – distinguished by the initial AMHKIS. Apart from this, the total number of training grade members at the end of 2020 was 3,657.

HKIS work includes setting standards for professional services and performance, establishing codes of ethics, determining requirements for admission as professional surveyors, and encouraging members to upgrade skills through continuing professional development.

The Institute has an important consultative role in government policy making and on issues affecting the profession. We have advised the government on issues such as building safety and unauthorized building works, problems of property management, town planning and development strategies, construction quality and housing problems. We have also issued guidance notes on floor area measurement, real estates valuation and land boundary survey, etc.

To qualify as a Corporate Member of the Institute, surveyors must possess a recognised academic degree or similar qualification, complete supervised professional experience within strict guidelines for a minimum period of 24 months, followed by an Assessment of Professional Competence (APC).

The title “Surveyor” embraces a number of disciplines involved with land and its development with land and buildings, covering an extremely wide scope. Some surveyors work in private practices and others may work for a landowner, developer, building contractor or government departments and related bodies. A **Land Surveyor** measures and records the shape and position of the land, define the boundary and set out the legal boundaries of the sites. A **General Practice Surveyor** advises on the best use of the land, assesses the feasibility and viability of the proposed development project as well as the valuation, marketing, sale, leasing

and management of completed developments. A **Planning and Development Surveyor** further advises on the possible change of zoning, the likely environmental impacts and make suggestion on preliminary development contents. A **Quantity Surveyor** is concerned with the building contractual arrangements and cost control, and will evaluate the likely cost of the development project and advise on the most suitable kind of contract for the project. A **Building Surveyor** involves in the project management of building development proposal, holistic maintenance management of building and overall control of private building under relevant legislation. A **Property and Facility Management Surveyor** provides a comprehensive range of services in real estate management.

The Institute has established and continued to expand its presence in the international scene through reciprocity relationships with other national surveying bodies and through membership in relevant world bodies and international organisations to maintain its professional edge at international level. The Institute is one of the 3 founding members, apart from the Singapore Institute of Surveyors and the Institution of Surveyors, Malaysia, of the Surveyors’ Alliance Asia which was inaugurated in November 2004. ## GENERAL PRACTICE DIVISION

### The General Practice Surveyor

Land is a strategic resource for operation and an investment asset. Interest in land or property is bought and sold for residential, retail, office and industrial uses. These uses require careful planning, administration, continuous management and improvement; properties are developed as direct investments or securitised, and if they are professionally managed, their values will be enhanced.

General Practice Surveyors are particularly equipped with skills and knowledge to offer timely and effective advice in connection with development, use and management of property resources both for operational needs and investment purposes. They are also concerned with planning, leases administration and valuation of land and buildings; negotiation of sales and lettings by private treaty and sale by tender or auction; financial and economic aspects of investment in property. Contemporaneously, because of the General Practice Surveyors' understanding of investment principles and asset pricing, practitioners are ready to respond to the mounting demand for valuation of trade-related business assets and business enterprises.

The services offered by General Practice Surveyors can be wide and varied. Recently, we are involved in valuation of franchises and intangibles and business valuation. Major roles played by General Practice Surveyors are as follows:

### Valuation of Properties

General Practice Surveyors value all types of landed properties for various purposes. These include:

- Valuations for sale, purchase, letting and mortgage purposes;
- Statutory valuations relating to land resumption, rating, stamp duty, and other taxation purposes;
- Valuations of company portfolios for listing, balance sheet purposes, company floatation, takeovers and mergers;
- Feasibility studies on all types of properties;
- Acting as an expert witness, independent valuer or arbitrator in valuation disputes.

### Development and Town Planning Consultancy

Real estate development is a complex process, which needs professional expertise and judgment. Through proper training and experience, General Practice Surveyors can provide a comprehensive range of professional services covering:

### Sales, Lettings and Auctions

General Practice Surveyors, on behalf of the clients, negotiate the purchase, sale or leasing of all types of land and buildings. They may act as auctioneers in the disposal of properties or as owner's agents in selling properties by private treaty or tender. They may also advise on marketing strategy and on preparation of sale and lease documents.

### Property, Asset and Facilities Management

In a society of rising user expectations, good quality professional management services are essential to sustain and enhance the property values. General Practice Surveyors have been involved in the management of all types of properties and facilities. They negotiate with landlords and tenants on rent review, lease renewal and re-letting of premises. They also advise on situations of refurbishment/ renovation/

enhancement and redevelopment of properties. Upon securitisation of properties, General Practice Surveyors also contribute their expertise in investment strategy and property portfolio planning.

## Business Valuation

Contemporarily, experienced General Practice Surveyors are engaged to provide independent valuation of trade-related business assets and enterprises in connection with mergers and acquisitions activities in Hong Kong and Mainland China.

# LAND SURVEYING DIVISION

## The Land Surveyor

Broadly speaking, land surveying is an art of position fixing. Surveyors involve themselves in all sorts of civil engineering works and land developments such as building houses, roads, bridges, canals, viaducts; defining property boundaries; preparing plans from various surveys and managing properties. Closely related to the development of civilisation of mankind throughout the world, the profession has contributed to the transformation of sparsely populated and undeveloped areas into modern industrial and commercial metropolises. Like other professions, advancement of technology has led to specialisation and land surveying is of no exception.

### Cadastral Surveying

Cadastral Surveying is concerned with the physical determination of boundaries and areas of land properties. It is always advisable for landowners and developers to ascertain the boundaries and area entitlements of their properties by land boundary surveys prior to any land development. There are at present two legislations in Hong Kong which provide for the control of professional services in this aspect. Registered Professional Surveyors of the Land Surveying Division (RPS(LS)) registered under the Surveyors Registration Ordinance and Authorised Land Surveyors (ALS) registered under the Land Survey Ordinance are well-qualified professionals to conduct land boundary surveys. Under the Land Survey Ordinance, any legal instrument effecting a subdivision of land must be accompanied by a land boundary plan prepared and certified by an ALS for registration with the Land Registry. The main services provided by RPS(LS) and ALS include:

- Re-establishment of land boundaries for valuation, land transaction and various land development purposes;
- Setting out of land boundaries; and
- Preparation of certified plans for subdivision of land parcels.

### Engineering Surveying

This type of surveying relates closely to civil engineering projects. The preparation of initial survey plans for detail design, setting out of critical points for construction and the measurement of earthwork quantities for payment are types of works under this category. Land Surveyors are actively involved in the construction of roads, flyovers, bridges, seawalls, railways, tunnels and skyscrapers. Land surveying techniques are also being used in industries like shipbuilding, aircraft construction and fixing of machinery where high precision on position determination is required. Monitoring of unstable structures, reservoirs, bridges, slopes, and areas is part of the works that may not be familiar to the public but important in protecting lives and properties. Major services provided under this category are:

- Preparation of initial site survey plans;
- Preparation of photo mosaics superimposed with engineering layouts for planning of engineering projects;
- Computation of construction alignments for civil engineering works;
- Setting out pre-determined positions for construction;
- Measurement of earthwork quantities; and
- Monitoring of unstable structures, bridges, reservoirs, slopes and areas.

### Geodetic Surveying

The purpose of Geodetic Surveying is to establish a very accurate main survey framework. It involves the establishment of a national network of horizontal and vertical reference points covering an entire territory.

Land Surveyors use very precise equipment for taking measurement over a large area for establishment of accurate survey network. With the advancement of space technology, Land Surveyors often use a satellite system, called Global Positioning System (GPS), for measuring points which are many or even hundreds of kilometers apart.

In the Hong Kong SAR, the Lands Department of the Government establishes and maintains the main survey framework. Trigonometrical stations situated on hilltops, traverses installed along the roadside and benchmarks on bedrock constitute the geodetic control point system. By connecting to the network, any survey can be tied together with respect to a unique reference system. In fact, the position of many land boundaries, roads, railways, bridges and construction works are referred to this system. Major services provided under this category are:

- Taking precise observation and maintaining the monuments of networks of horizontal and vertical reference points;
- Establishment of a territorial common reference system; and
- Detecting and measuring the movement of the earth's crust for scientific research and reducing the impact of natural disaster.

### Topographic Surveying and Digital Mapping

Mapping is a national service for security and development. Maps have been in use for thousands of years. Besides being a principal means of position locator, accurate maps are necessary for effective management of our environment.

With the use of emerging technology in Topographic Surveying and map revision, the complete series of 1:1000 scale maps covering the whole territory of Hong Kong have been available in digital form. Digital topographic information is the basic building block to support the sustainable development, natural resources management, environmental protection, urban planning and utilities management. Additionally, Digital Mapping forms the basic foundation for other information systems such as community services information systems, electronic street guide systems, natural disaster management systems, transport management systems and many others. It is foreseeable that many disciplines will benefit from Digital Mapping. As the advancement of technology has resulted in lower system costs and continual improvements in Digital Mapping, a much wider application of digital map data throughout government, business and industry can be achieved.

### Land Information Management

In the Land Information Management aspects, Land Surveyors are engaged in the collection, integration and dissemination of a wide range of spatial information. With the use of geographic information system technology, Land Information Management is rapidly penetrating a number of application domains such as environmental conservation, urban planning, pollution control, transport management, emergency rescues and many others. Land surveying is the most basic activity to create and maintain building blocks for the setting up of geographic information systems and Land Surveyors are in a good position to make valuable contributions to these systems.

### Photogrammetric Surveying

Photogrammetry is the science of measurement by means of photographs or digital imagery.

The photographs and digital imagery can be captured on ground, under water and in the air. Photogrammetric Surveying is the method of producing graphic plans, digital data, and computer models from photographs or digital imagery. Major services/products provided under this category are:

- Digital mapping;
- Digital terrain model;
- Orthophoto/orthoimage;
- 3D digital map;
- Deformation monitoring;
- Landslide investigation; and
- Antiquities and heritage sites recording.

### Hydrographic Surveying

Safe navigation and subaqueous construction require an accurate knowledge of the depth and topography of the seabed. Land Surveyors have used different techniques including the Differential Global Positioning System (DGPS) in the hydrographic survey for positioning. In harbours and their approaches, the depth has to be constantly monitored. As the seabed is hidden from the naked eye, its profile is determined by an echo sounder which sends sound waves down to the bottom of the sea and calculates the depth by measuring the time required for the signal to return to the surface.

In the Hong Kong SAR, the Government has taken over responsibilities from the British Admiralty for producing

navigation charts for the Hong Kong Waters. Major services provided under this category are:

- Measurement of water current;
- Bottom sampling;
- Location of rocks, lights, buoys and wrecks;
- Determination of channel depths and preparation of charts;
- Determination of subaqueous excavation quantities; and
- Collection of any information relating to marine navigation.

## PLANNING & DEVELOPMENT DIVISION

### The Planning & Development Surveyor

Real estate development is a complex process which requires professional input of various kinds throughout different stages of the process, from project inception to its completion. Planning & Development Surveyors, as a town planning and development consultant, can provide a comprehensive range of professional services to suit the specific needs of their clients.

#### Property Development Development Feasibility Study

Prior to inception of a development proposal, Planning & Development Surveyors provide clients with necessary site search and detailed analysis, and advise them on property values and appropriate land acquisition strategies. They conduct detailed market research to understand specific markets and recommend the appropriate type and mix of land uses, and the optimal scale of development with a view to maximising project return while minimising the risks. Development appraisal, covering land and property valuation, cash flow analysis, project return estimation, sensitivity analysis, etc., can be undertaken to test the viability of the development proposal under different scenarios.

#### Land Administration Input

Planning & Development Surveyors specialise in the interpretation of lease conditions; can advise on compliance with the lease conditions or any modifications to the lease conditions required; can act for the land owner to submit an application to the Lands Department for modification (or surrender and re-grant) of their land lease, negotiate with the Government on the lease terms and conditions (including the land premium); and assist in the execution of the lands document.

#### Town Planning Applications

Depending on the statutory town plan zoning that the development site falls within, development on it may require prior approval from the Town Planning Board. Planning & Development Surveyors can advise on zoning implications and the strategy to submit planning applications, review and/or appeal; and coordinate with other professional experts to prepare the necessary technical impact assessments to support the planning application. Professional services may also be provided in submitting planning objection to gazetted town plans to safeguard the interests of land owners.

## Development Project Management

Property development requires a wide range of input from various disciplines. Planning & Development Surveyors can help set up a right team for development projects with team members coming in at an appropriate time during the process; monitor the project progress against the development programme; advise on re-distribution of resources; and to resolve issues arising during the development process.

## Project Evaluation

In order to update the clients on the change in financial position of the project, Planning & Development Surveyors will carry out continual evaluation of the development proposal throughout the development process. It is done by inputting the actual cash inflow and outflow as well as a more accurate forecast on future income and expenditure into the financial model. A regular review of the property market trends can ensure that the development meets the client's requirements apart from the supply and demand situation in the market.

## Town Planning

### Public Sector

Planning & Development Surveyors are involved in the formulation of planning, land, housing, environmental and other development strategies and policies; participate in the preparation of statutory town plans under the Town Planning Ordinance and the non-statutory departmental and layout plans. Major development briefs are also prepared to guide development. Through the statutory and non-statutory plans, they regulate and control the type of land use and property development permitted having regard to the relevant planning policies, the environmental context and specific site characteristics.

### Private Sector

Planning & Development Surveyors advise clients on the extent to which the use and value of their land and property would be affected by town planning and environmental policies. The most common professional services include preparation, coordination and/or submission of planning applications, master layout plans, rezoning requests and planning objections; acting on behalf of clients in making written representations; and attending hearing in planning review, appeal cases according to the Town Planning Board and Appeal Board proceedings respectively.

## QUANTITY SURVEYING DIVISION

### The Quantity Surveyor

Quantity Surveyors are professionals who have been trained as construction cost consultants. They possess expert knowledge of costs, values, finance, contractual arrangements and legal matters pertaining to the construction field.

Quantity Surveyors provide appropriate services to suit diverse needs and the majority of their employers or clients include professional quantity surveying firms, private developers, corporations, government departments and related bodies, building and civil engineering contractors, insurance companies etc.

Quantity Surveyors are equipped to provide advice concerning various disciplines ranging from building construction, and civil and structural engineering, to petro-chemical installations and mineral extraction.

#### Preliminary Cost Advice

From the outset, Quantity Surveyors give practical advice on the likely cost of a project. Cost studies and advice including, but not limited to, alternative design solutions, structural forms, choice of materials, construction sequences and maintenance costs are also prepared. From such information, a detailed cost plan is developed for budgetary control.

#### Cost Planning

Cost planning is a specialist technique developed by Quantity Surveyors. Its aim is to help all members of the design team – architects, engineering consultants, interior design specialists and the like – to jointly maximise practical and aesthetic design solutions for a project whilst keeping within the client's budget.

Once a cost plan is prepared, and a realistic estimate agreed, effective cost planning ensures that everything that follows is in accord with the plan, from the acceptance of the successful contractor's tender to the final project cost.

In planning construction costs, maintenance and running costs are borne in mind, thus helping to achieve a project that is cost effective throughout its life.

#### Cost Control & Financial Management

Cost control is one of the most important processes in any capital project. The basic objectives are to achieve for the client the best value for money, to maintain the required balance of expenditure between the various parts of the project, and to keep the final expenditure within the client's approved budget.

When clients, or their consultants, decide to effect changes to the designs and introduce variations, Quantity Surveyors rapidly assess and report the cost implications of the changes.

In principle, cost control consists of three basic steps, namely:

- Establishing an overall cost target;
- Checking any deviations that affect the cost target; and
- Taking such remedial action as necessary to preserve the target.

In practice, the process of cost control embraces a range of professional activities such as cost analyses of earlier projects, cost planning/estimating, cost studies of alternative construction options, cost checking during the design stage, cost reconciliation during the tendering stage, and cost monitoring during the construction stage.

Cost planning facilitates improved economic standards, and so better value for money, during the design stage, whilst constant monitoring during the construction phase ensures that the risk of overspending is identified early so that prompt corrective action may be taken.

Cost estimates and financial reports, which are regularly produced by Quantity Surveyors, form an important aspect of the financial management of capital projects. Periodic financial reports enable clients to anticipate and control their future financial commitments.

#### Value Management

Value management is a systematic approach to eliminate waste from a design or client's brief, while at the same time retaining the safety and key functions of the project.

The objective of value management is to provide the project functions to the required standard and quality having regard to the best value for the money expended. This does not necessarily mean the lowest initial cost, but the highest value considering all factors impacting upon the project as a whole.

Quantity Surveyors are well qualified to lead value management studies on a project. The structured nature of value management permits the project team to obtain a clearer understanding of the project functions and objectives hence being able to reduce unnecessary costs. Value management also addresses the whole life implications of the building design both in terms of cost and the client's business objectives.

#### Procurement Methods

Quantity Surveyors have the expertise, knowledge and tools required in the selection of the "right" contractors and suppliers for any given project.

No two projects are the same. Most major projects (and many smaller ones) are individual challenges and need individual solutions.

The most common method of procurement is through competitive tendering based on a variety of forms of contract and options. The bills of quantities prepared by Quantity Surveyors have been used world-wide as the basis of tendering for many decades. During construction, bills of quantities also form a crucial element in effective cost control as well as the basis for the valuation of variations.

On occasions, the situation may warrant other forms of tendering and contractual arrangements. These include design and build, guaranteed maximum price, construction

management, prime cost contract and cost plus, to name just a few. Quantity Surveyors provide advice on the best choice of contractual arrangement to suit the circumstances of each individual project.

### Tendering

Competitive tendering of one kind or another remains the usual basis for awarding construction contracts, and bills of quantities are fundamental to this process. Bills of quantities translate the drawings, plans and specifications produced by the designer into a document that enables a contractor to calculate his tender price fairly and accurately, on exactly the same basis as his competitors.

### Valuation of Construction Works

In most construction contracts, the contractor is paid monthly. Quantity Surveyors prepare interim valuations of the work carried out on the project at regular intervals and submit recommendations for payment.

Quantity Surveyors are normally retained throughout and beyond the completion of the project in order to facilitate the settlement of the accounts, when all necessary adjustments are dealt with. If required, they will also prepare any analyses of the final account that may be required, prepare statements of expenditure for tax or accountancy purposes, and assess the project's replacement value for insurance.

### Financial Claims & Programme Analysis

Quantity Surveyors also prepare, and provide specialist advice and responses to claims, counterclaims and the like, for both time and money, including:

- Extension of time analysis: forensic analysis and delay demonstration techniques;
- Delay and disruption: time slicing, project analysis and productivity analysis; and
- Direct loss and/or expense: preparation of claims, responses to claims, auditing and analysis.

### Dispute Resolution

If disputes arise, Quantity Surveyors offer the following expertise and technical knowledge:

- Independent appraisal of the strengths and weaknesses of an employer's and/or a contractor's case concerning quantum;
- Technical advice and assistance throughout the dispute resolution process;
- Preparation of particularised documents including technical position papers, assistance with pleadings, further and better particulars and witness statements; and
- When suitably experienced, to act as expert witnesses for quantum or other associated specialist areas.

### Insurance Advice

Quantity Surveyors may choose to pursue their career in the field of construction insurance. The construction insurance professionals work in a variety of capacities in different organisations; examples of which include:

- Insurance administration personnel working for contractors/developers/consultants/ public entities/ Government/insurers/or other employers;
- Loss adjusters for loss adjusting firms on behalf of the insurers;
- Underwriting personnel for insurance brokers/ insurers; and
- Risk assessment personnel for insurance broker/ insurers.

## YOUNG SURVEYORS GROUP

The Young Surveyors Group (YSG) is a section of the Hong Kong Institute of Surveyors representing the interests of about 5,000 members – comprising student members, probationers and young qualified members across divisions – the power of the surveying profession in future.

YSG representatives are nominated to the General Council, Divisional Councils, Boards, Panels, Committees and Working Groups of the Institute, in order to bring in views from young members.

To enhance the professional competence of young members, YSG has been organising various site visits, Continuing Professional Development (CPD) courses and Pre-qualification Structural Learning (PQSL) events throughout the year. The topics cover a wide range of surveying disciplines in the real estate and construction industry. Tailor-made workshops for different divisions also help our probationers to tackle the Assessment of Professional Competence (APC).

In addition, YSG organises and participates in social events such as dragon boat competition, community services, wine tasting courses, sports competitions, outings, cooking classes and other social gatherings with other professional institutions, to enrich members' social lives.

Every year, YSG hosts study tours to visit cities in the Mainland China or overseas countries. YSG representatives also attend local and overseas conferences organised by local institutes and other international organisations such as the International Federation of Surveyors (FIG) and Pacific Association of Quantity Surveyors (PAQS). Through these visits and conferences, YSG members acquire a worldwide view of the surveying professional.

The professional image of the Institute is extended to the community by the works of YSG through a series of social events, volunteering works, joint events with various professional institutions and career talks to students of the universities and secondary schools in Hong Kong. The HKIS was one of the exhibitors in the annual Education & Careers Expo hosted by the Hong Kong Trade and Development Council and YSG has been the coordinator for the HKIS in the past few years.

# PRESIDENT'S REPORT 2019-2020

**Sr Winnie Shiu**

*President*

## ***Coming together is the beginning, Staying together is the progress and Working together for success***

It has been a great pleasure and an honour to serve as the President of The Hong Kong Institute of Surveyors ("HKIS" or "the Institute") for the council year 2019-2020.

2020 was a year of unprecedented challenges, not only for Hong Kong but also for the Institute. The outbreak of Novel Coronavirus in January 2020, which was later declared as a pandemic in March 2020, has caused social and economic disruptions globally. Many events and activities planned by the Institute as well as by other organisations were disrupted. In view of the uncertain situation of the novel coronavirus disease 2019 (COVID-19), and in compliance and observation of social distancing measures, many regular events were postponed, cancelled, or scaled down. The HKIS Annual Dinner, being the major highlight event of the year, was postponed for the first time in history.

The Institute has endeavoured to provide services to our members when the COVID-19 epidemic was at its worst. While maintaining the need to safeguard the health of the HKIS Secretariat staff and the spread of COVID-19 in the community, special work arrangements and operation hours were implemented to ensure that basic services to members were not affected.

As a result of COVID-19, IT solutions with video conferencing tools and equipment were implemented for the smooth and efficient operation of the Institute, including the enabling of the HKIS staff to access work files when working from home; facilitating various committees to continue their tasks and objectives through online meetings; and the arrangement of CPD and PQSL events and other activities in the form of webinars.

The Institute has managed to sustain and maintain a healthy financial situation for the financial year ending 31 July 2020. The rental concession given to the Beijing Office and a reduction in the

number of Institutes' and Divisions activities as a result of the COVID-19 epidemic have contributed to a decrease in the overall administration and operating expenditure.

Despite the challenges brought about by the COVID-19 epidemic, I am pleased to share with you what the Institute has achieved during the year both internally and externally.

## **1. Fight against COVID-19**

### **1.1 Coronavirus Dashboard**

As surveyors, we are able to draw on our unique expertise and contribute in the fight against COVID-19. As the President of the Institute and being a Land Surveyor specialised in geomatics, I advised the Government to work on a Spatial Information Dashboard, which tracks and informs the community on the latest figures and locations related to the spread of COVID-19 in Hong Kong. The Government launched the COVID-19 interactive dashboard in February 2020 within a short period of time after the outbreak. The project was jointly developed and managed by the Development Bureau, Lands Department, and a group of volunteers specialised in geomatics from the Smart City Consortium. As at the time of this report, the view count of the Dashboard has reached 41 million, proving its popularity and usefulness to the public.

### **1.2 Public Education and Joint Institutes Webinar**

In February 2020, our Building Surveying Division held a press conference to emphasise the connections between domestic drainage systems and epidemic prevention, following an outbreak of coronavirus infections on 2 separate floors of a residential building in Tsing Yi. The Institute also advised the Government to outsource unit inspections to surveyors and other professionals as a pragmatic and speedy measure to combat the pandemic. A set of anti-epidemic tips for domestic drainage, and an e-booklet were launched to

educate the public, incorporated owners and other stakeholders on how to properly maintain domestic drainage systems.

The HKIS joined hands with the Hong Kong Institute of Architects, the Hong Kong Institute of Planners and the Hong Kong Institute of Landscape Architects, in exploring ways for the construction related professionals to work together in the fight against the COVID-19 pandemic. Two Joint Institutes' Webinars on (1) COVID-19 – Challenges and Opportunities for Hong Kong – Architecture and Planning, and (2) COVID-19 – Challenges and Opportunities for Hong Kong – Surveying and Landscape, were organised on 31 July and 10 August 2020, respectively. On top of my opening speech, the Chairman of the Planning and Development Division, Sr Francis Lam, represented the HKIS to give a talk on “Making Hong Kong a Pandemic Resilient and Healthy City 打造香港成為具備防疫韌性的健康城市” at the webinar on 10 August.

### 1.3 Facilitating members through difficult times

Some members have lost or were unable to find employment because of the COVID-19 epidemic. To provide some relief and support to the individual members who were going through hardship and financial difficulties, a partial exemption from the payment of annual subscription of the current year was granted to these members by the General Council.

### 1.4 Facilitating anti-epidemic relief measures for the Construction Sector

The global influence of COVID-19 has taken a heavy toll on various sectors, including the surveying industry. In view of the concerns of the impact on members and member firms caused by the pandemic, the HKIS shared its insights and recommendations with the Government on the Anti-Epidemic Fund (AEF). The Government announced two rounds of Anti-Epidemic Fund in response to the demands of the construction industry and the Institute.

In response to our recommendations to provide subsidies to small and medium firms registered on the HKIS surveying company directory, the Development Bureau announced on 1 April 2020 that funding support under the AEF was to be extended to those consultants and companies previously excluded in the first-round subsidies. Each of the 120-plus HKIS surveying companies, who did not benefit under the first round of AEF, has successfully received a subsidy of HK\$20,000.

### 1.5 Training subsidies for Surveying Graduates and Assistant Professionals

To support employers in private organisations to employ graduates and assistant professionals and provide them with professional training in surveying as well as other professions, the Development Bureau announced a one-off relief measure in the form of training subsidies to employers. For a maximum of 12 months' period, each eligible graduate and each assistant professional would receive a salary subsidy of HK\$5,610 per month and a subsidy of HK\$10,000 per month, respectively.

The number of subsidy places allocated to the surveying sector included 297 places for graduates and 281 for assistant professionals. In view of the strong demand for subsidies, the Development Bureau decided to increase the subsidy places by 6% for graduates and 62% for assistant professionals.

As at the time of this report, the vetting of the Round 1 Applications for graduates/ assistant professionals is still in progress, and it is likely that some of the 2,189 places cannot be filled. The Development Bureau have proposed to launch a Round 2 Application in mid-December 2020 to fully utilize all the subsidy places. It is hoped that more companies will be eligible to receive support in the second round.

Apart from facilitating salary subsidies to employers, the Institute also made recommendations to the Government to consider providing subsidies specifically to surveying graduates (i.e. Probationers) who were diligently enriching their knowledge base through Pre-Qualification Structured Learning (PQSL) training. Unfortunately, the request was turned down.

### 1.6 Industries supporting one another

To boost public morale, the HKIS participated in a public awareness campaign initiated by the Law Society of Hong Kong with the anti-epidemic song, “Together, We Fight the Virus” (《疫境同行》) in March 2020. On behalf of the Institute, I joined the chorus in the recording along with local artists and representatives from professional organisations in fields ranging from medical to accounting, engineering, architecture, etc. While the melody was adapted from a 1980s hit “Walk with you” (《陪著你走》), the lyrics were rewritten to encourage sharing and solidarity during hard times.

Recording of anti-epidemic song 《疫境同行》

In May 2020, members of the construction industry joined hands with the Construction Industry Council, the Development Bureau, the Civil Engineering and Development Department (CEDD), as well as ten professional bodies and trade associations, in another anti-epidemic campaign to record the song “Sail through the Pandemic together” (《抗疫同舟》), uniting the construction industry and spreading positive energy in the fight against the pandemic.

### 1.7 Enabling exemption from quarantine

As the pandemic gradually subsides, many of our professionals will be heading north to the Mainland for cross-border projects. The Development Bureau announced that, in accordance with the compulsory quarantine of certain persons arriving in Hong Kong, the Government had released the mechanism for enterprises engaging in constructed-related professional services in the Mainland, to apply for the exemption from compulsory quarantine arrangement. The HKIS has played a crucial role in verifying the details of surveying applicants who sought the Government’s approval of the exemption from quarantine arrangement.

## 2. Membership

### 2.1 Growth

At the end of November 2020, the total number of members reached 10,949. Of the total membership, 7,212 were Corporate Members (555 Fellows and 6,657 Members) of which 290 were newly

elected, representing an increase of 3.6% from the previous year. There were 6 Honorary Fellows, 3,658 Probationers and Students and 73 Associate Members. During the year, 10 members were successfully admitted as Fellows. It is hoped that the respective Fellow members will help to lead the Institute and groom the new generation of surveyors.

### 2.2 Life-long learning

All members are required to keep up with the latest developments and enhance their professional and technical skills. A total of 186 Continuing Professional Development (CPD) events on a wide range of professional topics were organised (from 14 December 2019 to 30 November 2020) by the six Divisions, Young Surveyors Group and the HKIS.

Organiser	No. of CPD events held*

Planning and Development (PDD)	16
Property and Facility Management (PFMD)	11
Quantity Surveying (QSD)	49
Young Surveyors Group (YSG)	19
HKIS	23

\*Some events were jointly held by the Divisions and YSG

I was pleased to contribute towards organising some of the CPD events for the HKIS members, including:

- The First Estates (30 March 2020)
- Smart Cities – From IoT to IoP (7 April 2020)
- Professions – Their origin and development (21 May 2020)
- Cadastre Renovation: A maturity indicator for land management (10 June 2020)
- The Art of Leadership (15 July 2020)

### 2.3 Mandatory CPD checking

The Board of Professional Development (BoPD) completed the 4th Mandatory CPD checking exercise for the period between 1 January 2016 and 31 December 2018. Around 64% of the selected members have satisfied the Mandatory CPD requirements.

## 2.4 Enhancement works for online registration system

To reduce the workload in processing online registrations, enhancement works including automation of email reminders, integration of ZOOM webinar with the HKIS website using ZOOM API, and time conflict enhancement, etc., will be implemented.

The BoPD are considering to offer different e-payment methods for online CPD registration and exploring to organise CPD events in a hybrid mode (i.e. face-to-face meeting to be held at Surveyors Learning Centre and online meeting via ZOOM).

## 3. Public Recognition

Members of the Institute are active in providing feedback to the Government in relation to policies and legislations of the built environment, including on land supply, housing, and building policies, land management and planning, manpower supply etc. Meetings were arranged with the Development Bureau, Transport and Housing Bureau, Home Affairs Bureau, various Government departments, Construction Industry Council, Vocational Training Council and major stakeholders, to exchange insights into the industry and the business of the Institute.

Constant communication has been made with the Legislative Councillor representing the surveying industry to reflect our concerns over issues affecting our members and the industry as a whole.

The Property Management Services Authority (PMSA) confirmed the HKIS as a recognised professional body holding a Property Management Practitioner (PMP) (Tier 1) licence as defined by the Property Management Services (Licensing and Related Matters) Regulation (Cap 626 sub leg. B). Eligible Corporate Members under BSD, GPD, PDD or PFMD may apply for PMP (Tier 1) licence. Property management demands for professional service across multi-disciplines and its service quality affects the safety and hygiene standards of buildings as well as the living environment of the public. The enactment of the Property Management Services Ordinance (Cap. 626) (PMSO) is an important step signifying the general recognition and quality enhancement of property management services in our society.

### 3.1 Consultations and Submissions

The Institute has been active in providing feedback to the Government in relation to policies and legislation that are related to the built environment,

in such forms as attending briefing sessions, symposium and producing written submissions. Views were submitted on issues, including:-

- Policy Address and Budget
- Land Premium Assessment Mechanism
- Measures to Streamline Development Control
- Land Sharing Pilot Scheme
- Anti-epidemic Fund relief measures
- Special Advance Payment for HA PSP/Consultancy Agreements - Interim Relief Measure
- Proposed two-envelope tendering arrangement for the disposal of Site 3 at the New Central Harbourfront

### 3.2 Media Engagement

The Institute devised a media plan and engaged a public relations firm to facilitate our branding initiatives and increase our public exposure. To enhance our communication with the media, a Media Kit (containing the HKIS spokesmen list 2019-2020 and the scope of services of the six Divisions) was sent to the media in February.

#### Press Conference

On 12 February 2020, the HKIS held a press conference in response to the evacuation of residents of Hong Mei House on 11 February 2020, after two residents were confirmed to have contracted COVID-19. The conference covered topics such as essential knowledge of domestic drainage systems, case studies on unauthorised / improper drainage work, experience-sharing of survey findings and observations.

#### Press Release

During the year, the Institute issued 12 press releases to the media. We proactively voiced out our professional opinions on public policies by distributing press releases and issuing letters to the Government on matters such as land supply, housing and building.

**Newspaper Columns**

Apart from sharing our professional insights and expertise with the Government, the Institute also expressed its views in over 25 articles, published in a prominent local newspaper, and received positive feedback. From time to time, the HKIS spokesmen actively commented on topical issues and offered in-depth interviews to achieve the desired media exposure and increase the public profile of the HKIS. Our young surveyors also appeared in newspaper columns and dedicated interviews.

**3.4 Publications**

**家居排水系統保養全攻略 (Home drainage system maintenance)**

A set of anti-epidemic tips for domestic drainage (家居排水抗疫錦囊) and an e-version booklet (家居排水系統保養全攻略) were published in February 2020 to educate the public, incorporated owners, and other stakeholders on how to properly maintain their domestic drainage systems, in light of the COVID-19 outbreak.

**HKIS BIM Contract Conditions – Conditions of Contract for Building Information Modelling (BIM)**

A set of standard BIM Contract Conditions for use in conjunction with most local standard forms of consultant employment and contracts by practitioners and stakeholders of the Hong Kong construction industry was published in April 2020. The HKIS BIM Contract Conditions set out the obligations, responsibilities, and liabilities of the contracting parties in a contract or agreement where BIM is applied. The adoption of the BIM Contract Conditions provides a clear contractual basis in the

construction projects. This will have an added benefit for the further development of BIM in Hong Kong.

**Surveying & Built Environment**

Surveying and Built Environment is an international peer reviewed journal that aims to develop, elucidate, and explore the knowledge of surveying and built environment; to keep practitioners and researchers informed on current issues and best practices, as well as to serve as a platform for the exchange of ideas, knowledge, and opinions among surveyors and related disciplines. Volume 29 was published in April 2020.

**HKIS Valuation Standards 2020**

The HKIS Valuation Standards 2020 (“VS2020”) is published in December 2020, after ratification by resolution at the AGM on 11 December 2020. This is the third edition since its first release in 2012. It replaces the HKIS Valuation Standards 2017, which was reviewed and updated by the Valuation Standards Panel of the General Practice Division Council to adopt the International Valuation Standards 2020 that became effective on 31 January 2020. Other necessary changes were also made, including a new VS 11 on Development Property, and guidance on inspection arrangements due to travel restrictions related to the COVID-19 outbreak. The principal objectives of the Standards are to provide appropriate directions or guidance to members so that they can produce valuations/reports that reflect the highest standards of professionalism, integrity, clarity, reliability, and impartiality, in accordance with the recognised bases that are appropriate for the purposes of preparations.

**3.5 Community and Charity Services**

**Mask Donation**

The outbreak of COVID-19 in January 2020 had caused a panic and a shortage of surgical masks in Hong Kong and worldwide. The HKIS received a donation of 8,000 surgical masks in appreciation of participating in the Law Society’s anti-epidemic public awareness campaign. I presented the masks to our partnering non-governmental organisations, the Agency for Volunteer Service, the Hong Kong Council of Social Service and Po Leung Kuk, for their distribution to the needy.

The Building Surveying Volunteers Team (BSVT) under the Building Surveying Division joined hands with two social service groups to launch the “Face Mask Donation Campaign for the Needy”, with an aim of promoting the spirit of resource

sharing when most are facing the shortage of surgical face masks. All collected masks were donated to Hong Kong Sheng Kung Hui St Stephen’s Church and The Hong Kong Society for the Deaf for distribution to the needy.

I would like to take this opportunity to express our heartfelt thanks all members and organisations who donated masks or contributed to the mask donation campaigns.

Mask Donation to HKIS partnering non-governmental organisation

**Caring Organisation**

In recognition of our commitment to the community and concern for its employees and the environment, the HKIS was awarded the “10 Year Plus Caring Organisation Logo” by the Hong Kong Council of Social Service. This is the 14th consecutive year in which the HKIS has been honoured with this award and we thank the Agency for Volunteer Service for nominating the HKIS throughout all these years.

### **Growing Partner III – Child Development Fund Programme**

The Boys' & Girls' Clubs Association launched the Growing Partner III – Child Development Fund Programme (結伴再成長-兒童發展基金計劃) for Shatin and Kwun Tong Districts for the year 2020-2023. Supported by the Labour and Welfare Bureau of the HKSAR Government, the programme targets to support 200 children, aged from 10 to 16, from low-income families to develop necessary skillsets, attitude, social network, personal experience and funding during this critical time of their life. With the guidance of mentors, the children can explore the world, plan, and achieve their life and career goals.

15 HKIS members participated in the programme.

The Past Chairman of the Community and Charity Services Committee, Sr Billy Wong, is currently the Chairman of the Advisory Committee of the Programme.

### **Happy Future Mentorship Programme 2020**

Jointly organised by the Hong Kong Society for the Deaf and the HKIS, the "Happy Future Mentorship Programme 2020" (「前面有樂」量師童行計劃) aims at matching HKIS members with hearing impaired children and helping the mentees to explore themselves. With the guidance of mentors, the kids are encouraged to take up challenges and improve their self-confidence. Under the COVID-19 situation, 2 online activities were organised to talk and play with the children.

### **AVS "Together We Plant"**

To support the 50th Anniversary of Agency for Volunteer Service (AVS), the HKIS Community and Charity Services Committee and Young Surveyors Group formed teams to join a tree planting activity "Together We Plant" on 4 July 2020. It was to

Opening Ceremony of AVS "Together We Plant" on 27 June 2020

encourage people to "Go Green Volunteering" by caring and volunteering for our environment and planet. I participated in the opening ceremony on 27 June 2020, and together with volunteers, we transplanted seedlings of various native tree species in Shing Mun Country Park, Tsuen Wan.

### **Computer donation**

For the protection of the environment and for promoting recycling, the Institute donated used and obsolete desktop computers to Caritas Computer Workshop. The computers that are still in working condition would be refurbished and donated to the needy or dismantled in an environmental way.

## **3.6 Dispute Resolution services**

The HKIS provided appointment services for resolving disputes, including:-

- Arbitrator (HKIA & HKIS Joint Appointment): 16
- Mediator (HKIA & HKIS Joint Appointment): 3
- Independent Valuation Expert: 4
- Mediator (for Joint Mediation Helpline Office Ltd): 3

The formation of an adjudicator nominating panel under the Security of Payment Legislation is being planned.

## **4. Promoting the Surveyors' Brand**

### **4.1 Community Campaign**

A series of Public Engagement Events were launched in 2019-2021 to promote Built Heritage Conservation of Hong Kong with a grant from Built Heritage Conservation Fund (BHCF) under Development Bureau. "Maintenance and Appreciation of Historical Buildings" Creativity Competition, one of the events in the programme, aims at encouraging the public to explore,

"Maintenance and Appreciation of Historical Buildings" Creativity Competition - public exhibition (15-22 November 2020)

maintain and appreciate the historic buildings in Hong Kong and to demonstrate their creativity to reveal the beauty and cultural value of them. Over 750 participants from more than 60 schools and organisations participated in the competition. The Competition Ceremony was successfully held on 15 November 2020, where I delivered a welcoming speech and presented prizes to the winners. All finalist entries were displayed at the Mills for public exhibition during 15-22 November 2020 (including 39 photos, 92 drawings, 6 microfilms and 9 tiny models).

**4.2 Promotion of the Profession**

The Divisions and Young Surveyors Group visited various academic institutions, organised roadshow career talks, and joined Virtual Information Days organised by local universities to share with the students their views and advices on career prospects.

The Institute, in collaboration with the Education Bureau’s Business-School Programme, held a career talk on “Career Prospects of the Surveying Profession” on 6 November 2020. The talk was held online for the first time with the participation of 157 students and teachers.

The Hong Kong Institute of Surveyors Best Development and Conservation Award was successfully launched on 16 January 2020. This pioneering award with the theme “Surveying Excellence in Development and Conservation” aims to echo the United Nation’s SDGs from a local perspective; to promote the image of surveyors; and to display their masterpieces in development and conservation projects. It also aims at further promoting the professional image, bringing together the six Divisions and paying tribute to the surveyors who have made substantial contributions in sustainable development and conservation. The award presentation ceremony and dinner are scheduled to be held in 2021.

The General Practice Division launched its first promotional video in February 2020.

The Quantity Surveying Division Scholarship Programme aims to reward students who are studying quantity surveying at local universities (City University of Hong Kong, The Hong Kong Polytechnic University and University of Hong Kong), the Hong Kong Institute of Vocational Education and the Technological and Higher Education Institute of Hong Kong, with the objective of becoming quantity surveyors; and to promote quantity surveying as a highly valued

profession in the construction industry. On 28 October 2020, a presentation ceremony was held to award scholarships to 18 students in recognition of their outstanding performances in key quantity surveying courses leading to a bachelor’s degree, associate degree, or higher diploma.

HKIS Quantity Surveying Division Scholarship Presentation Ceremony (28 October 2020)

The HKIS Scholarship Presentation Ceremony to acknowledge the undergraduate students in the final years of their HKIS accredited courses for their outstanding academic performances in the previous academic years was held on 8 September 2020. 54 scholarships were awarded to winners from 5 academic institutions, namely, City University of Hong Kong, the Hong Kong Polytechnic University, University of Hong Kong, the Hong Kong Institute of Vocational Education, and the Technological and Higher Education Institute of Hong Kong.

## 5. Members' Communication and Services

### 5.1 Members' Forums

An Open Forum on the Past, Present and Future of Surveyors was organised by the Senior Members Committee.

### 5.2 Members' surveys

Members were invited to give their views in questionnaire surveys conducted on Senior Members' interests, and on the HKIS Office Premises, respectively during the year.

### 5.3 Review of the HKIS Office Accommodation

A Task Force was formed to review our office accommodation and provide options for tenancy renewal or relocation. The initial observations of the findings from the members' survey on the HKIS Office Premises revealed that members have considered relocation of our office to save costs. Meeting rooms and space for CPD seminars could be integrated and reduced in size as members have accepted webinar CPD seminars and online meetings as the "new normal". The Institute will continue to explore the options, including lease renewal, lease restructuring and alternative accommodation.

### 5.4 E-payment service

A proposal by the Finance Committee to implement an e-payment service as an alternative payment method for members to settle their annual subscriptions was accepted by the General Council. The e-payment service is aimed at providing a more convenient and quicker mode of payment by members and is targeted to be implemented in the next subscription year. Review of the same e-payment service to cover APC, CPD events etc. is being explored.

### 5.5 Cooperation with other Professional Institutes, Government Departments, and non-Government organisations

Although there were no face-to-face meetings, we continued to maintain communications and connect our members with other Professional Institutes, Government Departments, and non-Government organisations to exchange views on policy issues and to jointly pursue subjects of common concerns through an online platform.

## 6. Mainland and International Co-operation

Due to the outbreak of COVID-19 and the related boundary restrictions between Hong Kong and the Mainland, all Mainland visits, exchanges, and conferences were postponed or cancelled. Under this "new normal", the Mainland Affairs Committee and the 3 Mainland Forums (Beijing Forum, Shanghai Forum and Guangzhou Forum) made use of technology to connect with our members in the Mainland and maintained close dialogue with the relevant Mainland ministries and counterparts.

In an effort to connect with our Mainland Forums, the Office Bearers held an online meeting with

the respective Chairman of the Mainland Forum together with the Mainland Affairs Committee (MAC) on 21 July 2020. The latest update of each Forum and the MAC were shared at the meeting, including topics on the latest CEPA measures and Greater Bay Area Opportunities for the surveying industry; promotion of the HKIS and surveying industry in the Mainland; and difficulties faced by members in the Mainland.

### 6.1 Comments and Suggestions

The HKIS has continued to act as a bridge between different government departments from the Hong Kong SAR / Mainland and members. Comments and suggestions were submitted through meetings, forums or in written format to the Hong Kong SAR/ Mainland Government, Legislative Councillor or related organisations, particularly on the possible favourable circumstances for surveyors to practice in the Mainland. At the same time, the Institute updated and introduced to our members the latest surveying related policies in the Mainland by organising seminars or sending eDM.

- Attending a briefing session by the Development Bureau on new measures for the construction industry under CEPA including mutual recognition of qualification and areas of practice.
- Comments and suggestions on 「深圳市前海深港現代服務業合作區香港工程建設領域專業機構執業備案管理辦法」 and 「深圳市前海深港現代服務業合作區香港工程建設領域專業人士執業備案管理辦法」 (Record-filing Measures for Professional Firms and Qualified Practitioners from Hong Kong's Construction and Engineering Sector to Practice in the Shenzhen Qianhai Shenzhen-Hong Kong Modern Service Industry Cooperation Zone) for Shenzhen Qianhai.
- Letter from industry representative in the Legislative Council, Sr the Hon Tony Tse, BBS, JP, to the Ministry of Housing and Urban-Rural Development to support reciprocal recognition between general practice surveyors and mainland appraisers.
- Attended different seminars or forums organised by the Hong Kong SAR/ Mainland Government to provide suggestions on the development of Greater Bay Area. (e.g. 粵港澳大灣區座談會 (Guangdong-Hong Kong-Macao Greater Bay Area Forum), 粵港澳大灣區新措施簡介會 (Briefing Session on New Measures in Guangdong-Hong Kong-Macao Greater Bay Area), 前海合作區 - 建設領域深港合作創新成果發佈會 (Qianhai Cooperation Zone - Shenzhen-Hong Kong Cooperation and Innovation Achievement Conference in the Construction Field).

- Suggestions to the Department of Housing and Urban-Rural Development of Guangdong Province on studying the advantages (policy/system) of the Hong Kong's surveying industry.

## 6.2 Mainland Forums

CPD events and members' gatherings were organised by the Beijing, Guangzhou, and Shanghai Forums respectively for members in the Mainland as listed below. With the advantages of information and communication technology, CPD seminars could be conducted online during the COVID-19 outbreak, not only benefitting members in the Mainland but also members in Hong Kong and other countries, clearly demonstrating that knowledge and experience could be shared without physical boundaries.

### Beijing Forum

## 7. Future generation of leaders

The sustainability of the Institute much depends on continuity of support by members and the future generation of surveyors. It is our aim to nurture young members and groom them into future leaders while encouraging them to develop their own interests and to demonstrate their influence in various committees, boards and working groups.

More opportunities and delegation of activities will be provided to young members, providing them with more exposure and connections with other members, various professional groups and construction related stakeholders, which are essential for their all-round professional and social development.

## 8. Sincerest appreciation

I would like to express my sincere gratitude and appreciation to all the Office Bearers, members of the General Council and Executive Committee, the Divisional Councils, Boards, Young Surveyors Group, Policy Panels, Committees, Task Forces and Working Groups, and the HKIS Secretariat staff for their unflinching contribution, dedication and hard work, despite the hardship caused by the COVID-19 pandemic. Let us hope that we can see the light at the end of the tunnel in 2021, and usher in an early global solution in the fight against the virus.

I wish the HKIS and the incoming General Council every success in the year to come.

# HONORARY TREASURER'S REPORT

For the Financial Year Ended 31 July 2020

**Sr Dr Lesly Lam**  
*Honorary Treasurer*

Dear Fellow Members,

I am pleased to present herewith the audited account of The Hong Kong Institute of Surveyors (HKIS) for the financial year ended 31 July 2020. The auditor's report was prepared by Messrs Katon CPA Limited.

The total revenue of the HKIS for this financial year was HK\$29,214,679, representing a decrease of about 10.90% or HK\$3,574,269 as compared with that of the previous year (2019: HK\$32,788,948). On the expenditure side, the total amount of operating and administrative expenses (including taxation and finance cost) for the year was HK\$25,270,684, representing a decrease of about 13.40% or HK\$3,920,424 when compared with that of the previous year (2019: HK\$29,191,108). In total, a surplus of HK\$3,943,995 was recorded, representing an increase of about 9.60%.

The amount of accumulated fund of the HKIS as at 31 July 2020 was HK\$26,239,370, representing an increase of about 17.69% when compared with that of HK\$22,295,375 in the previous year, demonstrating the importance that the Institute has placed on prudent financial management and stringent control on operating and administrative expenses.

With full endorsement of the General Council, a fund from the surplus in the amount of HK\$3,393,521 has been reserved for capital expenditure or necessary maintenance and renovation work of the HKIS in the future. I strongly believe that the financial position of the Institute would be equally as good, if not better, with added funds to the reserve in the years to come.

Since the real estate and construction industry remains to be relatively sustainable under the impact of COVID-19 pandemic, contribution from the growth of new membership is still the main contributor to keeping a healthy financial situation of the Institute this year. However, at the beginning of the pandemic, a few events including CPDs were cancelled, leading to a decrease of revenue. The Institute resorted to shifting most physical events to virtual online participation. The recent Annual Conference via webinar has been a great success. Thus, I take this opportunity to thank the President, Office Bearers, members of the General Council and Committees for their greatest efforts in maintaining the growth and operation of the Institute.

The Institute will continue to observe the prevailing practices/guidelines with respect to financial controls on all expenditures to ensure that all resources are allocated in the interests of the Institute as a whole.

The accumulated funds for the Institute, Divisions and Young Surveyors Group are listed as follows:

<b>Accumulated Fund (HK\$)</b>	<b>31/7/2020</b>	<b>31/7/2019</b>
The Institute - Reserved Fund	3,393,521	2,019,909

Young Surveyors Group	2,313,775	2,074,503
<b>Total:</b>	<b>26,239,370</b>	<b>22,295,375</b>

It has always been an honour to serve the Institute, despite that 2020 has been a difficult year for everyone. I would like to thank the President, Sr Winnie Shiu, who led us through this tough year, the Office Bearers, the members of the General Council and the Finance Committee, and all staff of the Secretariat for their patience and unfailing support. Lastly, I would like to thank Ms Eva Leung for her hard work in keeping the Institute's accounts in good order.

Wishing you all the best, especially a healthy year of 2021!

# HONORARY SECRETARY'S REPORT

**Sr Raymond Kam**  
Honorary Secretary

I am very honoured to be the Honorary Secretary for the year 2019/20 and it is my great pleasure in presenting this Report for your perusal. As the Honorary Secretary of the Institute, it was my duty under the direction of the General Council to conduct the ordinary business of the Institute in accordance with the Constitution and Bye-Laws; to keep an accurate record of the proceedings of the Institute and the General Council; to keep the Membership Register of the Institute; to conduct the correspondence of the Institute; and to give notice of all meetings of the General Council and General Meetings of the Institute.

Apart from the above, I was responsible for handling membership affairs including the applications for exemptions and concessions of subscriptions, applications for reinstatement of membership, complaints against members as well as disciplinary proceedings.

In 2020, apart from the Annual General Meeting (AGM) for the election of Office Bearers of HKIS, one Extraordinary General Meeting was conducted in relation to the proposed amendments to the Qualifications for Membership under the HKIS Bye-Laws. A resolution to ratify the HKIS Valuation Standards 2020 was also included in the business of the AGM.

## HKIS Extraordinary General Meeting on 6 January 2020

A proposal to overhaul the criteria for admission to membership, including the review of academic eligibility, training requirements and APC as set out in Part II of the HKIS Bye-Laws, was presented to the General Council for members' consideration in 2018. Following several rounds of consultations and revisions, the proposed amendments were approved in principle by the General Council on 26 September 2019. To effect the changes to the criteria for membership admission, resolutions on the proposed amendments to Bye-Laws 2.3, 2.4 and 2.5 in respect of the Qualifications for Membership were put to the vote at the Extraordinary General Meeting (EGM) on 6 December 2019, which was adjourned because of insufficient quorum as required under Bye-Law 5.4.1. At the reconvened EGM held on 6 January 2020, the resolutions were put to the vote of Corporate Members. The results of the voting were as follows:-

Resolutions	Number of votes (%)		Total number of votes*
	For	Against	
<b>Resolution 1</b> In respect of Qualifications for Associate Membership for Admission to Professional Membership	230 (35%)	433 (65%)	663
<b>Resolution 2</b> In respect of Qualifications for Associate Membership	200 (30%)	463 (70%)	663
<b>Resolution 3</b> In respect of Qualifications for Probationer Membership	213 (32%)	450 (68%)	663

\* Including 648 by proxy and 15 voting in person

All three resolutions were not passed as fewer than the required affirmative votes were received.

## HKIS Annual General Meeting on 11 December 2020

The HKIS Valuation Standards ('the Standards') is mandatory in nature to members of the HKIS, and shall be applied to the valuation reports prepared in respect of all properties to be included in any documents or to be used for any other purposes as referred to in the Standards. The HKIS Valuation Standards 2017 was reviewed and updated by the General Practice Division to adopt the International Valuation Standards 2020 (IVS 2020) that became effective on 31 January 2020, as well as to incorporate other necessary changes including a new VS 11 on Development Property and a guideline on inspection arrangement due to travel restrictions as a result of the COVID-19 outbreak. After a consultation process, the HKIS Valuation Standards 2020 (VS2020) was presented to the General Council for endorsement on 24 September 2020. In accordance with Bye-Law 6.1, a resolution for the ratification of the HKIS Valuation Standards 2020 was put to the vote of Corporate Members at the HKIS Annual General Meeting on 11 December 2020. The results of the voting were as follows:-

Resolution	Number of votes (%)			Total number of votes*
	For	Against	Abstain	
That the HKIS Valuation Standards 2020 be ratified in accordance with Bye-Law 6.1	199 (91.3%)	18 (8.3%)	1 (0.4%)	218

\* Including 175 by proxy and 43 voting in person

As more than 50% of the votes were cast in favour of the resolution, the resolution was duly passed.

The VS2020 may be downloaded from the HKIS website at [www.hkis.org.hk](http://www.hkis.org.hk) and hardcopies of which may be purchased from the HKIS Secretariat.

# DIVISIONAL COUNCIL & YOUNG SURVEYORS GROUP REPORTS

## BUILDING SURVEYING DIVISION

**Sr Billy Wong**  
*BSD Council Chairman*

It has been a challenging year for all of us. The impact and disruption of everyday life of the Covid-19 pandemic has been unprecedented. However, with full support of the council members, co-opted members, and fellows, the BSD has successfully worked together on different new initiatives for its members and the community during this “new normal”. The division’s key efforts over the last 12 months is summarised as below.

### 1. THE 1<sup>ST</sup> BSD RETREAT

To formulate medium- to long-term strategies for the BSD’s future development, a two-day brainstorming workshop was held from 11 to 12 January. Committee members reviewed the division’s membership structure and performed SWOT analysis in four focus areas:

1. Outreaching to Students and Probationers
2. Enhancing Support for Professional Members
3. Providing a Platform for the Market and Industry
4. Serving the Community

The council committee developed an annual plan and medium- to long-term strategies based on the above findings with dedicated office bearers assigned to oversee their implementation.

### 2. BSD NEW COUNCIL STRUCTURE

During the retreat, the committee proposed the addition of another Honorary Secretary to support and share the workload of the current Honorary Secretary, in order to facilitate the work and new initiatives of the office bearers. The EGM was held on 6 November at the Surveyors Learning Centre.

67 valid votes including 31 by proxy were received at the EGM and all the votes were cast in favour of the three resolutions.

The committee unanimously agreed to add an extra Honorary Secretary.

Below are the new office bearers and the council structure for the 2020/21 Council year.

### 3. BSD STUDENTS AND PROBATIONERS

#### 3.1 1st Roadshow Career Talks with ArchSD, BD, and HD at All Four Universities

The BSD, along with the AArchitectural Services Department (ArchSD), Buildings Department (BD), and Housing Department (HD), co-organised career talks for the students from these four universities so that they were able to gain better understanding of private and government practices before they join the Building Surveying Graduates training programme. The first talk was held on 23 January at HKU, while subsequent talks were held online for the CityU, PolyU, and THEi students in May and June. The officers who were in charge of the BSG/MSG training programmes in their respective departments were invited as guest speakers. The BSGs/MSGs were also invited to share their experiences with the students.

#### 3.2 BSD Pre-Qualification Structured Learning (PQSL) during the Special Pandemic Arrangement

To help its probationers prepare for the APC during the pandemic, the BSD held a series of online seminars covering various topics. The entire series attracted a total of 2,500 people.

In view of the tough circumstances, the BSD offered six out of the ten PQSL series this year for free, which attracted over 1,900 participants.

#### 3.3 APC

The pandemic has seriously affected the APC assessment schedule. To cope with this “new normal,” the BSD implemented new initiatives and measures.

##### 3.3.1 An APC Milestone: Video Conferencing for the Final Assessment

The BSD Education Committee (DEC) recently

reviewed alternative measures to resume the APC Final Assessment, which had been suspended due to the pandemic.

After a trial run in late August, the first formal Final Assessment by video conference was held on 26 September. Two Assessment Panels were recruited and the whole process proceeded smoothly.

With successful implementation of the assessment via video conference, online interviews have become the alternative to conventional face-to-face interviews.

##### 3.3.2 APC Days for the Final Assessment in October

To reduce the backlog of candidates on the waiting list, the APC Days for the Final Assessment were scheduled for two consecutive Saturdays on 17 and 24 October.

Below is a summary of the APC assessment as at November.

2020	No of Panels	Assessors	Candidates
Practice Task	23	93	64
Final Assessment	43	139	122
Total	66	232	186

#### 3.4 Membership

As compared with 2019, there was an increase of 74 Corporate Members (+5%). There were 811 Probationers comprising 35.6% of total members (excluding students).

## 4. DEVELOPMENT FOR CORPORATE MEMBERS

### 4.1 Continuing Professional Development (CPD)

A total of 19 online CPD events were organised which attracted over 4,000 attendees. To support its members during the pandemic, the BSD made some of the selected CPDs free, which received very positive feedback.

### 4.2 Structural Courses in the Pipeline

As one of new initiatives suggested during the retreat, the working group organised structured course(s) to strengthen members' technical knowledge in different core aspects. Structural courses for building affairs expert determination and conservation are scheduled for the first quarter of 2021. Stay tuned.

## 5. MARKET AND INDUSTRY

### 5.1 Anti-epidemic Publication

In response to the pandemic, a set of tips for domestic drainage (家居排水抗疫錦囊) and an e-booklet (家居排水系統保養全攻略) were launched, explaining to the public, the incorporated owners and other stakeholders the proper ways to maintain domestic drainage systems.

2. 家居排水抗疫錦囊: <https://bit.ly/2Tr0d17>
3. Anti-epidemic Tips: <https://bit.ly/2Ptf1eg>

## 6. OUR COMMUNITY

### 6.1 Press Conference on 12 February 2020 on Covid-19 Outbreak

In response to the evacuation of residents from Hong Mei House on 11 February after some of the residents had contracted Covid-19, the BSD held a press conference on 12 February to inform the public of the connection between domestic drainage systems and epidemic prevention. The conference, which attracted over 30 media representatives, covered topics such as the essential knowledge of domestic drainage systems; case studies of unauthorised/improper drainage works; experience-sharing of the survey findings

from Block E of Amoy Gardens in 2003 during the SARS epidemic; and observations of similar units at Cheung Hong Estate.

### 6.2 To Support the Community: Facemask Donations to the Needy

The Building Surveying Volunteers Team (BSVT) worked with the other HKIS divisions, YSG, and their companies and initiated a facemask donation campaign in February to assist the underprivileged, who had problems obtaining their own masks during the time of serious shortages.

The focus was not only on the quantity of masks received, but also on promoting the spirit of sharing a vital resource with others when there was a shortage.

### 6.3 BS Channel (BSD 頻道)

The BSD's first-ever live chat platform (BSD頻道) was successfully launched on 23 September with over 300 initial participants. It was the BSD's new initiative to provide a platform for its members to meet and casually exchange ideas.

The first topic discussed on this platform was related to how BSD probationers could prepare for the APC.

To conclude, I want to express my sincere thanks and heartfelt appreciation to all office bearers, council members, co-opted members, fellow members, and helpers for their enduring support, valuable guidance and contributions to the division over the past year. I hope everyone will continue to work together for their common goals and contribute to the community.

## DIVISIONAL COUNCIL &amp; YOUNG SURVEYORS GROUP REPORTS

## GENERAL PRACTICE DIVISION

**Sr Alnwick Chan***GPD Council Chairman*

While it was a challenging year for many in Hong Kong, GPD has continued to witness breakthroughs in 2020. I want to recognise the collective efforts of our Council Members. They have worked enthusiastically to create continuous development of our division despite the crises plaguing our city. I am pleased to give you a short account of our major activities in the past year.

### **Proposed Reciprocal Agreement with the China Appraisal Society**

To enhance business and career opportunities for members, the Council has endeavoured in recent years to help members expand their fields of practice into Mainland China by pursuing a reciprocal arrangement between the GPD and China Appraisal Society (CAS, 中國資產評估協會).

In early 2020, the GPD received a positive response from China's Ministry of Housing and Urban-Rural Development (MOHURD, 中華人民共和國住房和城鄉建設部) regarding its reciprocity request with the help of Legislative Councillor Sr the Hon Tony Tse.

On 1 June, the government authorities of the Hong Kong Special Administrative Region and mainland China implemented the Agreement Concerning Amendment to the CEPA Agreement on Trade in Services. The new agreement introduced several new liberalisation measures to help GPD members register their practices in Qianhai (Shenzhen), Hengqin (Zhuhai), and Nansha (Guangzhou). Details of this arrangement have yet to be finalised, and the Development Bureau is still discussing the application procedure with the HKIS.

A working group under the leadership of Sr K K Chiu was formed to examine the impact this liberalisation process may have on the practices of GPD members and to advance the discussion on reciprocity with the China Appraisal Society.

In November, both the GPD and China Appraisal

Society (CAS, 中國資產評估協會) expressed a mutual interest in establishing reciprocity. The working group is now drafting the reciprocity agreement for discussion. Should it pass, the business and career opportunities for surveyors will be greatly expanded.

I express my thanks to Sr K K Chiu and the members of the working group including Sr Andrew Chan, Sr Charles Chan, Sr Alexander Lam, Sr Thomas Lam, and Sr Clement Leung.

### **Liaison with the Lands Department**

In response to the COVID-19 pandemic, Government offices, including the Lands Department, were partially shut down in early 2020. This resulted in widespread delays in the approval of planning applications, building plans, landscape submissions, occupation permits, Certificates of Compliance, etc, and hindered the city's property development.

As such, back on 21 February, the GPD wrote to the Director of Lands to request, among other things, that it increase the frequency of its policy meetings (eg, VC, DLC, and BCIII) once the Lands Department resumes its normal operations. The GPD also urged the Department to consider granting free 12-month building covenant extensions to all ongoing development projects and reminded the Government that similar measures were implemented during SARS in 2003.

On 20 April, the Department announced several support measures to aid the industry including free extensions of the building covenant period for up to six months for certain leases. Another measure was additional rent or fee concessions for tenants of short-term tenancies (STT) and waiver holders. This concession was extended to businesses, such as depots for public transport operators, public utilities, petrol stations, driving schools and advertising facilities, which were not covered under the 2019 concession.

On a separate note, the Council was pleased to hear that Mr Lai Chi-wah Andrew was appointed the new Director of Lands on 5 August and office bearers of the Council had the pleasure of paying him a courtesy visit on 16 September. The Deputy Director/Specialist, Mr Tony Moyung, was also in attendance.

The Council took the opportunity to discuss with Mr Lai several issues that stakeholders in the property industry faced including lease renewals/extensions, human resources, the Department's work-from-home arrangements, payment terms for consultancy engagements, tree-felling applications and the consultation process with the District Councils in respect of land applications. Views on the Land-Sharing Pilot Scheme and enhanced Pilot Scheme for Arbitration on Land Premium were also exchanged.

## Premium Assessment Mechanism Review

Lease modification or land exchange used to be a major source of residential land supply. Given that projects requiring lease modification or land exchange often involve disputes over land premium assessments with the Lands Department, property developers' interest in pursuing such projects has dwindled significantly over the years.

As such, a working group was formed under the leadership of Sr Charles Chan to review the Government's land premium assessment mechanism and suggest improvements. A paper summarising its findings was submitted to the Secretary for Development and Director of Lands on 18 March. The working group members had a fruitful discussion on the matter with the Development Bureau on 30 November.

On behalf of the Council, I express my sincere gratitude to the working group members for trying to move forward the debate on this incredibly critical subject, which could potentially and substantially boost residential land supply in Hong Kong.

## Land Policy Review

One alternative to the current land premium assessment mechanism is the standard land price system. Many of Hong Kong's neighbours, such as Mainland China, Macao, Singapore, and Taiwan,

have effectively implemented standard land price systems. In 2020, the Land Policy Panel led by Sr C K Lau conducted comprehensive research on the standard land price system and its applicability to Hong Kong.

GPD is pleased to hear that the government will roll out a pilot scheme in early 2021 to charge land premium according to "standard rates" in respect of lease modification applications so as to expedite redevelopment of industrial buildings.

## HKIS Valuation Standards 2020

The new valuation standards by the International Valuation Standards Council (IVSC) and Royal Institution of Chartered Surveyors (RICS) came into effect on 31 January. One of the critical changes to the International Valuation Standards 2020 is the requirement of using two valuation methods to assess development properties.

Sr C K Lau also led the work to update the HKIS Valuation Standards. His panel undertook an extensive review, deliberations, and public consultations before drafting the HKIS Valuation Standards 2020. The General Council endorsed the new proposed standards on 24 September, which was then ratified by resolution during the Institute's AGM on 11 December 2020.

The HKIS Valuation Standards 2020 has come into effect on 31 December 2020 and is now available on the HKIS website.

On a side note, the pandemic has created safety concerns amongst members who conduct property inspections. In response to the Government's quarantine and travel restrictions to Mainland China, the panel also prepared a guiding note listing the considerations in inspection arrangements under these special circumstances.

I thank the Valuation Standards Panel for its many contributions throughout 2020.

## Online CPD Breakthrough

Given the need for social distancing amid the pandemic, the CPD Panel has conducted its CPD events online since March via Zoom. This change has not only made savings on venue rental costs possible, but has also expanded the opportunities to invite distinguished speakers and audiences from around the world. It is fascinating to note that the HKIS has received participants from the US, UK,

and Mainland China during this period, virtually opening new doors to CPD events and it is truly a breakthrough for the GPD.

Despite the public health crisis, the CPD Panel has managed to organise 16 CPD events in 2020 with registrations totalling 3,300 and an average of 200 participants per event. I attribute this tremendous success to the dedication of the GPD's organisers, invited speakers, and event helpers. Special thanks go to Sr Andrew Chan, Sr Jason C S Chan, Sr Leo Cheung, Sr Benson Lee, and Sr Alvin Leung for overcoming every hurdle to make this year's CPD events possible.

### **APC and new members**

The pandemic has also caused uncertainties and numerous challenges for exam administrators and APC candidates. The Education Committee, under Education Committee, under the leadership of Sr Dr Lennon Choy and Sr Leo Cheung, strived to ensure that all examination-related venues provide adequate social distancing.

By strictly adhering to the Government's social distancing guidelines, the APC Part I Assessment was successfully held on 3 and 10 October. In total, 26 candidates sat for the Part I Assessment, while 38 candidates attempted the Professional Task written assessment. In December 2020, 60 candidates sat for the Part II Assessment.

A diploma presentation ceremony was conducted on 15 October for newly-qualified surveyors who undertook the Part II assessment in December 2019 and June 2020. Thirty-five candidates passed their interviews.

Under the Memorandum of Mutual Recognition of Membership, the HKIS admitted 20 new members who were also RICS corporate members. I express my deepest gratitude to the Education Committee, HKIS/RICS Working Group, and voluntary assessors for their contributions.

### **Task Force on HKIS Office Accommodation**

Wing On Centre has been home to the HKIS since 1 January 2013. Its current lease will expire on 31 December 2021, which is only a year from now. A task force was established under the leadership of Sr Winnie Koo to plan and explore the Institute's options for its future headquarters.

After a comprehensive study of the Institute's space requirements and relocation options, the task force successfully conducted a questionnaire survey in August to gauge the views of members concerning the current premises. The task force and Strategic Planning Committee have deliberated over the survey results and will use them to steer the way forward.

I express my thanks to Sr Winnie Koo, Sr Alvin Leung, and Sr Kent Yeung for handling this task, which is critical for the Institute's future.

### **Acknowledgements**

The GPD Council's affairs rely on the active voluntary participation of its Council Members in the various task forces, panels, committees, and working groups.

The GPD's continued prosperity testifies the Council's commitment and dedication. I thank all of its members, co-opted members, and YSG representatives for contributing their time, skills, and connections to help the GPD realise its potential and expand its influence throughout Hong Kong and the Greater Bay Area.

Finally, I thank all GPD members for their ongoing support.

### Smart City, Geographical Information System (GIS) and Common Spatial Data Infrastructure (CSDI)

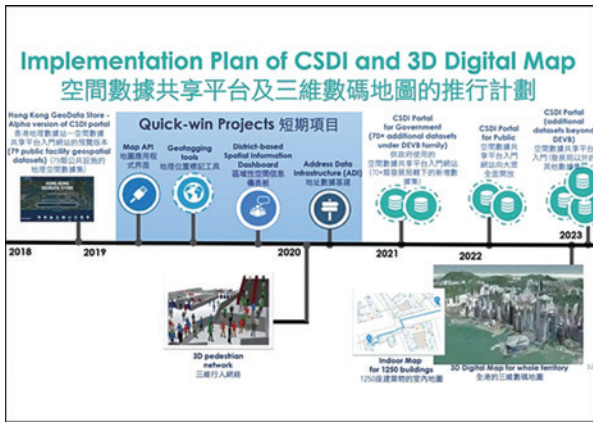

At the beginning of the year, I reported in the *Surveyors Times* that “the Government has proposed enhancing the use and sharing of spatial data, which include a location component for policy making, driving innovation, and creating value for society. Acknowledging that spatial data infrastructure is vitally important to smart city development, the Government has committed to developing CSDI and 3D digital mapping in its 2019-2020 Budget. It aims to advance the full operation of the CSDI portal by the end of 2022.” We need more professional LS to carry out the jobs for the Institute as well as for Hong Kong in the building of a Smart City and CSDI.

Common Spatial Data Infrastructure (CSDI)

Timeline for implementing CSDI and 3D Digital Map

However, 2020 turned out to be a difficult year for everybody in the world because of the COVID-19. All activities of the Institute were badly affected due to the requirement of social distancing. We could not have face-to-face meetings but arranged web meeting instead. Web CPD also replaced face-to-face CPD. We overcame the situation and managed to carry on our activities as much as practicable.

Nevertheless, our expertise in GIS has been recognised in the development of COVID Dashboard such that timely, accurate and efficient information about COVID can be delivered to the public for easy reference.

### LSD Cross Region Conferences

Continuing Professional Developments are vital for enriching our professional knowledge and broadening our vision in the ever-developing world.

Due to the COVID19 pandemic, we were unable to have the face-to-face meetings and conferences as we used to have in the pre-COVID time. However, we were able to ride on the emerging technology of remote meetings such as QQ, Teamwork and ZOOM to conduct more cross-region/cross-location on-line conferences.

### 自然資源調查監測學術論壇 (粵港澳大灣區學術交流會)

2020年7月2日，香港測量師學會與廣東省測繪學會、澳門特別行政區地圖繪製暨地籍局於線上成功聯合主辦「自然資源調查監測學術論壇 (粵港澳大灣區學術交流會)」。粵港澳測量界專家學者齊聚論壇，讓三地一同「雲」享學術盛宴，增強三地平台樞紐作用，推進深度合作，為協同推進大灣區經濟高質量發展和自然資源高水平保護提供服務作出貢獻。

整場論壇緊扣自然資源調查監測主題，依托粵港澳三地測繪技術發展與科技交流，旨在構建三地自然資源領域合作新平台，提升三地凝聚力，共謀灣區發展，論壇吸引了逾 500 人參與。

## PASS Professional Services Advancement Support Scheme (PASS) - Workshops from the Belt and Road countries: China, Sri Lanka, Pakistan and Kazakhstan

A HK\$1.93M project, funded by the Government under the PASS Professional Services Advancement Support Scheme (PASS), was approved in 2019 for HKIS LSD to promote its professional services to the Belt and Road countries. These include our advanced technical promotional products in UAV-generated, urban 3D modelling and remote-sensing applications for urban development and natural resource reservations. We researched and translated the national surveying practice rules and qualifications for the targeted “Belt and Road” partners and introduced our system to them.

In 2020, three workshops were held on-line to link up experts from the four Belt and Road countries.

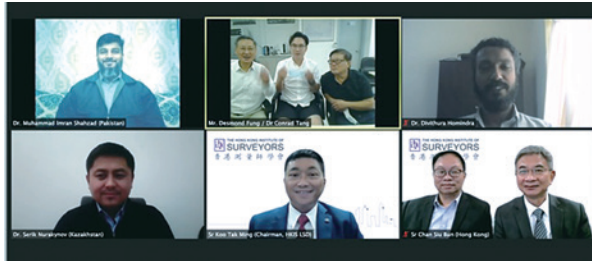

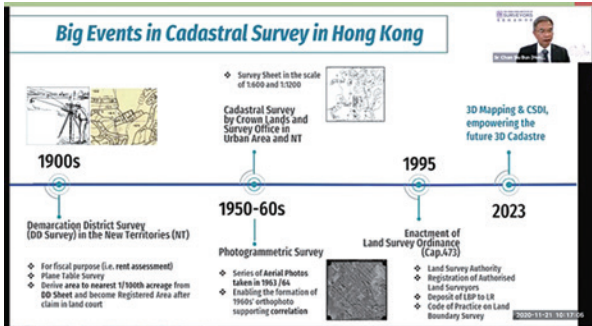

1. “Workshop for Technology Sharing to Local Practitioners on the Remote Sensing Technology” on 28 August 2020

2. “Workshop on The Latest Market Requirements: Practicing Qualification, Procedure, Applications, Market Opportunities in Belt and Road Countries: China, Sri Lanka, Pakistan and Kazakhstan” on 5 September 2020

3. "Workshop on cadastral law and operation from the four Belt and Road countries: China, Sri Lanka, Pakistan and Kazakhstan" on 21 November 2020

## LSD's Role in Issues Affecting the Profession

We have contributed LS's view on issues such as Land Supply Strategy, Housing Policy, Transport Planning and Management, Public Project Developments and Professional Supports, Budget Over-run on Major Infrastructure / Civil Engineering Projects, and Sustainable Development of the Young Generation.

We expressed our views in particular on Determination of Land Boundaries by amending the Land Survey Ordinance (Cap. 473) (LSO) to provide the channel to determine lot boundaries. We supported the Government's policy to provide a legal framework to allow landowners to ascertain the extent of their property through determination of land boundaries. We opined that the establishment of a modern and effective land boundary record system is not yet in place to support all types of land development projects. We urged the Government to strengthen its role as a Land Boundary Authority by introducing a mechanism to sanction modern boundary surveys so that they could gain legal status. The Government should speed up the work in developing the legal framework for the implementation of boundary determination in order to ascertain land boundaries, thus avoiding disputes and delay in development process. In the meantime, we urged the Government to consider adoption of administrative measures to provide practical and intermediate solutions to rebuild the economy in the post COVID-19 era.

A Working Group on Land Survey Ordinance (LSO) under the Land Boundary Committee was formed to oversee and talk to the relevant bureau and department on the improvement of LSO.

We also made our suggestion on the adoption of the Building Information Modelling technology to support all types of development in Hong Kong. The Government should continue to promote the use of BIM technology in the construction industry and allocate resources for the capacity development, establishment of standards and data sharing of BIM. A GIS-based central BIM data repository should be established to facilitate the management and exchange of open BIM data. To speed up the use of BIM and its drive for the Hong Kong Smart City, we recommended the setting up of a task force to construct the as-built BIM models with basic Level of Information Needed (LOIN) for all the existing high-rise buildings/infrastructures in Hong Kong.

We consider an accurate, timely and up-to-date information are necessary for making policy decisions and for managing Hong Kong in an effective manner. The Government should put forward policies to speed up Spatial Data Infrastructure (SDI) development and formulate a digital framework and standards for the development of Hong Kong as a smart city.

We welcome the Government's continuous support for establishing the CSDI to consolidate, exchange and share more spatial data for the use by organisations in both public and private sectors. We look forward to seeing the quality spatial data (e.g. 3D maps, land boundary, planning and other spatially related data) being shared in an open, up-to-date, accurate, standardised and sustainable manner through CSDI, thus facilitating the transformation of Hong Kong into a more spatially enabled Smart City.

A Working Group on CSDI and 3D Maps under the Land Boundary Committee was formed to oversee and talk to relevant bureau and department on the development of CSDI and land related boundaries.

## Vote of Thanks

I would like to take this opportunity to express my sincere appreciation to all council members for serving the Institute and leading the Land Surveying Division Council (LSD) this year. I

would also like to thank the LSDEC, the BOM representatives and all other LS representatives in committees and working groups. The LSD grew significantly and expanded its scope of services to the community, especially during 2020.

Lastly, I am sorry to report that the LSD Annual Dinner 2020 was cancelled due to the COVID-19 pandemic. However, I would like to thank the OC in preparation of the all the necessary ground works. I look forward to the Annual Dinner 2021 when the situation resumes normal next year.

## The Trend of Land Surveying Beyond 2020

The era of CSDI/3D Maps/Smart City is coming. I was informed that land surveyor was chosen to take up the duty to build quality spatial data and the related information for the purpose. LSD has been promoting the concepts of GIS, COVID Dashboard, AI, Unmanned Aerial System (UAS or Drones) and others via various channels. We shall keep up with the latest land surveying technologies and cooperate with other professionals in Hong Kong for a better city and environment.

In the coming year, I wish the new council will continue the unfinished works and make significant progress on various tasks. I look forward to seeing more new faces, especially the young surveyors to help promote our professional services to the public and the society.

# DIVISIONAL COUNCIL & YOUNG SURVEYORS GROUP REPORTS PLANNING & DEVELOPMENT DIVISION

**Sr Francis Lam**  
*PDD Council Chairman*

During the past year, we have experienced three waves of the novel coronavirus pandemic and various levels of social distancing in our community. So far, I am very glad that no PDD Member has reported serious inflection of COVID-19.

In response to the local pandemic situations, the PDD Council took a couple of measures to maintain the Division's functions which were by and large uninterrupted. We followed all the Government anti-pandemic regulations and guidance in carrying out meetings and events. Thanks to the HKIS Office technical support for setting up the Zoom online services that had made it possible for all our meetings/CPDs/PQSLs/technical sharing to be conducted via Zoom, so as to comply with the requirement of social distancing.

Sr Francis Lam attending a meeting via Zoom

After holding the first and second PDD Council Meetings (in person) on 14 November and 12 December 2019, we faced the outbreak of COVID-19 in late January 2020. We reacted quickly to cancel our February 2020 Council Meeting and postponed all CPD/PQSL events until further notice. With the adoption of Zoom online services, we were able to resume our bimonthly Council Meetings from 16 April 2020 (11 June, 13 August, 8 October 2020) and the CPD/PQSL events from 4 May 2020.

## Annual Conference and Annual Dinner

After due consideration by the PDD Council, we had decided not to organise our PDD Annual Conference and PDD Annual Dinner in 2020 in view of the uncertain pandemic situations.

Certainly the Council will put these two events on our 2021 agenda items.

## Membership Profile

Notwithstanding the adverse impacts caused by the COVID-19, I am pleased to report that we have gained a total of eight new Corporate Members either by multiple membership applications or by PDD APC since January 2020. In fact, we have one Probationer who passed the PDD APC on 30 October 2020 and his HKIS Membership application was considered by the HKIS Board of Membership (BOM) on 17 November 2020.

On the other hand, we are pleased to have Sr Annie Chong promoted to become a Fellow Member of PDD. I understand that there is also an application for PDD Fellow Membership considered by the HKIS BOM on 17 November 2020.

As at 12 November 2020, the membership profile of PDD was as follows:

Membership Class	Number of Member
Fellow	44
Member	53
Probationer	16
Student	21

We conducted two APC Final Assessments on 20 March 2020 and 30 October 2020 respectively. Two APC candidates passed their APC Final Assessments. One is a seasoned property development professional (civil engineer) and the other one is a graduate of B.A. in Urban Studies, University of Hong Kong.

## Supporting our Probationers and University Students

Sr Prof Tang Bo Sin, Sr Edmond Yew and Sr Annie Chong (from the left) in ZOOM meeting with students.

Our Council Members, Sr Edmond Yew and Sr Annie Chong delivered professional talks to the University of Hong Kong's B.A. in Urban Studies (BAUS) Year 3 students via ZOOM on 31 March and 21 April 2020.

At the invitation of Professor Tang Bo Sin, our Council Members, Sr Edmond Yew, Sr Eureka Cheng, Sr Annie Chong and I attended the HKU BAUS students' studio project presentations on 12 May 2020 to provide our insights and feedback. We hope the dialogue will be useful to the students in furthering their aspirations and understandings in urban planning and land development in Hong Kong.

In the past few years, the Council have been helping the students of HKU BAUS obtain summer internships with a view to enriching their experience in planning and development of their working fields. This year we continued this meaningful exercise despite the fact that the job market had been very weak in July and August 2020. After all, we received very positive feedback from the employers about the BAUS students' performance.

## PQSL Short Course: Planning Practice, Law and Ethics in Hong Kong

We continue our collaboration with the Department of Urban Planning and Development (DUPAD) of the University of Hong Kong to offer the course "Planning Practice, Law and Ethics in Hong Kong" to our Probationers as part of their PQSL in local planning practice and law. This course is a core course in DUPAD's Master of Urban Planning course.

## PDD Research Project

Following through with the last Council's effort, the PDD research proposal of "Market Research for Hong Kong Planning and Development Surveyors in Belt and Road Countries: Case Studies of Vietnam, Thailand and Malaysia" had obtained the approval of the HKIS Research Committee and the General Council in May 2020. Afterwards, HKIS entered into a Research Agreement with the University of Hong Kong in July 2020. It is expected that Dr Guibo Sun will complete the research project by July 2022.

## Engagements with Government

### Land Sharing Pilot Scheme

Prior to the formal launch of the Government Land Sharing Pilot Scheme policy in May 2020, the PDD Council had the honour to invite the Permanent Secretary for Development (Planning and Lands), Ms Bernadette Linn JP, to share with our members the concept and policy objectives of the Land Sharing Pilot Scheme (LSPS) on 23 January 2020. The LSPS aims to alleviate the current housing land shortage by means of public-private partnership, enabling agricultural land

conversion into residential land for both public and private housing supply. Our members had a very meaningful and in-depth discussion with Ms Linn and her colleagues during the sharing session. That was the last face-to-face CPD event we held before the outbreak of COVID-19.

## Central Waterfront Site 3 Proposed Two-envelope Tendering Arrangements

I was invited to attend a government briefing session on 22 May 2020 regarding the proposed Two-envelope Tendering Arrangements for the Government Land Disposal of Central Waterfront Site 3. This briefing was organised by the Development Bureau to solicit the opinions of professional bodies on the proposed two-envelope tendering arrangements for the Site 3, given its unique and prime location in the Central Harbourfront.

## New Measures under the CEPA

Further to the signing of the Agreement Concerning Amendment to the Mainland and Hong Kong Closer Economic Partnership Arrangement Agreement (CEPA) on Trade in Services (Amendment Agreement) between the Central Government and the HKSAR Government in November 2019, there are some new measures to advance our professional services through mutual recognition of qualification/practice in the Greater Bay Area. In this connection, the Development Bureau organised a briefing session on 20 January 2020 to introduce the new measures for the construction sector. HKIS Mainland Committee Chairman Sr Dr Stephen Lai and I, representing the HKIS, attended the briefing session.

## Fire Services Department Connects with the Construction Industry

I represented the HKIS to participate in a Fire Services Department (FSD) Connects with the Construction Industry event on 19 December 2019. The FSD exchanged views and knowledge on fire services installation works and acceptance inspections with the attendees. A new Form FSI/501a and a revised Form FSI/501 were announced to be adopted by Q2 2020 with a view to simplifying the application procedure for inspection and testing of fire services installations.

## Recognised Professional Body of Property Management Services Authority

# DIVISIONAL COUNCIL & YOUNG SURVEYORS GROUP REPORTS

## PROPERTY & FACILITY MANAGEMENT DIVISION

**Sr Kays Wong**  
PFMD Council Chairman

The year 2020 was a very challenging year for our PFM profession. It was also a special year for the Property and Facility Management Division (PFMD) to celebrate its 15th Anniversary. When COVID-19 was proliferating in Hong Kong, especially in the first half year of the term, the immediate challenges to our profession included the environmental hygiene of estates/buildings and the support of the front-line staff. Many of our members were busy with their daily works, taking precautionary measures to control and limit the transmission of the virus around their managed estates and developments. Our members had to resolve various impending problems in the managed properties and living environment by contributing their professional knowledge, wisdom, and social skills. Despite the great inconvenience and delays of some of our planned activities as a result of the pandemic, our council team members were able to arrange CPD activities and conference for our members during such difficult time. Major news, events and activities of our division are reported as follow.

Current General Council 2019-2021 [PFMD]

AGM PFMD 2020

### 1. "Anti-epidemic Support Scheme for Property Management Sector" (ASPM) under the "Anti-epidemic Fund" 物業管理業界抗疫支援計劃

In view of the heavy workload of frontline property management staff, our Institute was one of the first organisations to propose to the Government to implement the captioned subsidies scheme in early 2020. The objective of the ASPM is to provide financial supports to front-line PM workers (mainly cleaning and security workers) in private residential and composite (i.e. commercial and residential) buildings, which were then extended to commercial and industrial buildings, with a view to improving their personal protection and environmental hygiene, and giving recognition to their services. The PFM Division also urged to extend the fund to the front-line technical staff engaged in anti-epidemic works. The ASPM had also alleviated the additional costs arising from heightened cleansing efforts and the burden on the residents and occupants.

### 2. Property Management Licensing Regime

Four Divisions of our Institute (including PFMD) were the first few professional institutes recognised by the Property Management Services Authority (PMSA) as professional divisions of a professional body (PMP Tier 1). Members are reminded that the Property Management licensing regime took effect on 1 August 2020 and should familiarise themselves with the Property Management Services Ordinance (Cap 626). There are 2 types of licences:

- a) Property Management Company Licence (PMC); and
- b) Property Management Practitioner Licence (PMP Tier 1 and Tier 2)

A practitioner will be given a three-year grace period to apply for the licence.

On behalf of HKIS, PFMD's **Sr Kays Wong and Sr Amy Tang** expressed our views in the formulation of the codes and the guidelines of the new PMSA Code of Conduct entitled "Complaint Handling Mechanism of Property Management Companies" and "Effective Control over Property Management Business by Property Management Companies". The codes were to be gazetted and to take effect on 8 January 2021. For licensees of property management companies (PMCs) and property management practitioners (PMPs) licences to follow the guidelines set out in the codes in an effective and professional manner, the PMSA will later prepare the relevant Best Practice Guides for the licensees.

### 3. Career Talks

Our PFMD representative **Sr Dick Li** participated in the HKIS online career talk for Form 3 to Form 6 secondary schools students on 6 November 2020. The introduction of PFM surveyor profession and its career development was welcome with very encouraging response.

The HKIS YSG Career Talk was conducted on 23 November 2020 in the THEi Chai Wan campus, which was attended by more than 40 surveying students. As the representative of PFMD, **Sr Shelley Chan** shared with the participants the career path and professional prospect of a PFM surveyor.

### 4. PFMD Annual Conference 2020 and 15th Anniversary

This year was an important year for PFMD as we successfully held our Annual Conference 2020 and 15th Anniversary celebration on 8 July 2020, just before the Government announced the further prohibition on group gathering. About 190 government officials, industry leaders, professionals and academics came to attend the conference. The theme of the Conference was "Building a Liveable City: The Role of Property and Facility Management Professional". We were honoured to have the Under Secretary for Transport and Housing Bureau, Dr So Wai Man Raymond, as our Guest-of-Honour. The Conference successfully promoted the property & facility management professional services, updated A.I. building technology, as well as green and sustainable practices for building a liveable city. The conference had enhanced the professional status of the property & facility management services, with strong support from our distinguished speakers and various

Government Departments, Academia, Industry, Sponsors and PFMD Members. Attended by over 200 participants, the conference completed smoothly and safely with rounds of applause.

### 5. CPD Activities

Despite the COVID-19 outbreak during the year, with the continuous support from various PFMD Council Members including PFMD CPD Committee Members, we conducted 11 quality and successful

CPD events from January to December 2020, Due to the restrictions on group gathering and social distancing, our CPD activities were held in a new media format by Zoom Conference. These CPD events attracted high participation rate and received very good feedback and comments. All our scheduled site visits were postponed until further notice and arrangement by the supporting organisations. For the sake of our members' health and safety, some HKIS site visits, meetings and events were cancelled or postponed. Subject to the prevailing situation of COVID-19 and the advice of the Government, our Division will reschedule these activities to a later time as appropriate.

The organised CPD events are listed below:

Date	Event	Speaker
13 January 2020	Latest EV Charging Technologies and Building a Completed Local EV Charging Infrastructure	Mr Vincent Chung

## 6. Research Studies

We worked closely with the Hong Kong academia in our services-related projects. We commissioned The Hong Kong Polytechnic University to conduct a research on "The Use of BIM by the Property/Facility Management Industry in Hong Kong". The research and survey were conducted by Dr Joseph H K Lai, an Associate Professor in the Department of Building Services Engineering of the Hong Kong Polytechnic University. In April 2020, Dr Lai held a seminar via Zoom, showing members the different data and methods for different categories in BIM, and briefed us different kinds of successful cases in the UK, Europe, US, and HK projects. The most common barriers and enablers referencing under different constraints in various projects as well as some special and innovative applications were shared. The conclusion and recommendations in the short, medium, and long term for promoting BIM in PFM were also introduced.

## 7. Quality Property and Facility Management Award

Owing to the pandemic crisis this year, the Biennial Quality Property and Facility Management Award jointly organised by the HKIS and The Hong Kong Association of Property Management Companies (HKAPMC) had been cancelled. We plan to resume this meaningful and important event in 2021 and will work with HKAPMC as soon as the situation permits. The theme of Quality Property and Facility Management Award (QPFMA) 2018 was "Smart Building, Smart Management".

## 8. Quality Building Award 2020

Some of our members represented the HKIS as Assessors to conduct site visits to the short-listed nominated projects.

## 9. Media Coverage

This year, PFMD had several media coverage. On 11 April 2020, **Sr Kays Wong** was interviewed on the radio programme, **Metro Finance (新城地產街)**, to share information on how our Property and Facility Management professionals had been fighting against COVID-19; how to tackle the difficulties encountered; how the Government's "Anti-epidemic Fund" had helped our frontline staff, the management companies, and the building owners who were facing high risks of epidemic virus; the economic and manpower impact of the epidemic on our industry; the level of management fees in the near future; and the career prospects of our PFM surveyors. On 16 April 2020, our **Sr Amy Tang** had published an article (物業設施管理的防疫攻略) in **Sing Tao Daily**, featuring the PFM Strategies in combating COVID-19.

On 24 June 2020, **Sr Kays Wong** was invited by the **Cable TV (講樓論市)** programme to share information on the management office's duty related to fire safety of open kitchen units of a development. Subjects such as the reason why the annual inspection of fire installation and equipment were important for open kitchen owners/occupiers; the safety of the subject unit and the building were also discussed. Moreover, the estate management offices were advised to assist owners/occupiers in arranging statutory annual inspection of such fire installation and equipment by registered contractors at least once every 12 months, whether or not such installations were part of the common facilities, and whether

the annual inspection fee should be included in the monthly management fee, which would depend very much on the terms and conditions as specified in the Deed of Mutual Covenants of the respective estate or development.

The feature article of Job Market was published on 4 September 2020. Sr Kays Wong was invited by the Job Market for an interview in late August 2020 to share information on the responsibilities and career prospect of PFM Surveyors. As stated, the responsibilities of PFM Surveyors were not limited to the traditional services like management of properties, security, cleaning, and related repairs and maintenance services. Our PFM Surveyors also take up roles in asset management and project management, etc. Also, in view of the housing units supply at around 20,000 units from the private and public sectors, together with the supply of government, commercial and institutional developments, there will be strong demand for PFM professionals in the near future, whether the economy is booming or not.

Our Council Member, Sr Shelly Chan was interviewed on 14 August 2020 by the Hong Kong Economic Times to introduce the work and the career prospects of Young Surveyors.

On 1 October 2020, Sr Kays Wong wrote an article on Sing Tao Daily with the title "How new technologies are useful for property and facility management and sharing some of the latest new technologies application to the building management."

## 10. Meeting with Government Officials

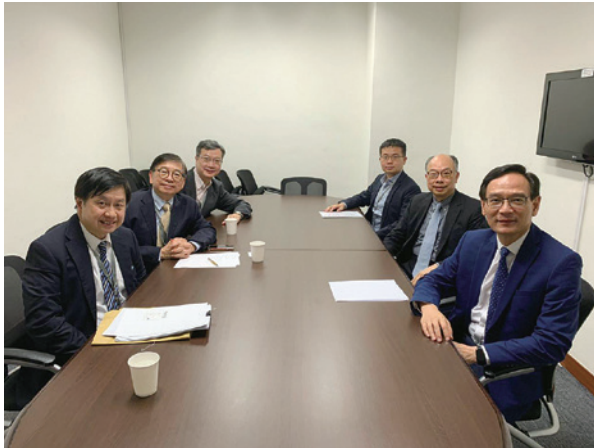

### (a) Meeting with Director of Home Affairs Bureau

On 9 April 2020, Sr Kays Wong attended a meeting with the Home Affairs Bureau together with the Chairman of PMSA, Sr the Hon Tony Tse and representatives from the property management, cleansing and security sectors. The purpose of the meeting was to discuss the suggestions on the enhancement of the "Anti-epidemic Support Scheme for Property Management Sector" (ASPM) under the "Anti-epidemic Fund". Apart from supporting that the "Anti-epidemic Fund Phase 2" should cover Industrial and Commercial Buildings, the HKIS also proposed that frontline technical personnel who were dealing with anti-epidemic

works should also be included under the “Anti-epidemic Fund”, in addition to the security and cleansing workers.

**(b) Meeting with Mr Chan Fan, Frank, Secretary for Transport and Housing**

In view of the economic recession as a result of the COVID-19 pandemic, the Government was determined to allocate more resources to help young graduates as provided in the Chief Executive’s Policy Initiatives. A special fund would be set up by the Financial Secretary to help the graduates from four professional institutes namely, HKIS, HKIA, HKIP and HKILA to acquire their professional training. A meeting was arranged by **Sr the Hon Tony Tse** to meet with Mr Chan Fan, Frank, Secretary for Transport and Housing on 27 May 2020 to discuss the graduates’ placements in various government departments. The meeting was attended by **Sr Kays Wong, Sr Charles Hung** and **Sr Prof Eddie Hui**, who exchanged valuable information and ideas with Mr Frank Chan regarding the contributions of PFM surveyors in various crisis in Hong Kong including SARS in 2003, Typhoon Mangkhut in 2018 and COVID-19 this year. The meeting was fruitful as we had gained better understanding of the government’s procedures. We shall keep members informed of further developments in this respect in the future.

## 11. Membership Growth

Starting from 2005 with founding members at 594, the number of Property and Facility Management Division members have grown to 830, comprising 138 Fellow Members, 650 Members, 27 Probationers and 15 Students Members as of 31 December 2020.

In 2019, our Division signed a Memorandum of Mutual Recognition of Membership (MMRM)

with our counterpart, the Royal Institution of Chartered Surveyors (RICS). With the introduction of the reciprocal arrangement with RICS, there have been increasing enquiries and applications from interested applicants. However, some of the professional interviews had to be postponed because of restrictions on group gathering. The interviews and examinations would only be conducted after the relaxation of the government restrictions. We are also currently reviewing the accreditation of some surveying programmes of higher institutions and universities for the next few years. We look forward to having more young members to join our industry in the coming years.

## 12. Looking Forward

In retrospect, we have seen all preventive measures taken to mitigate the spread of COVID-19, which have given us better understanding of our living environment and our deficiencies. Recently, it is evident that Hong Kong people have been working closer together with each other and able to cooperate better. This is a positive sign for us to continue in this direction in the combat against the pandemic in the months ahead.

We hope that with our research and development on good management practices for the industry through our CPD education, our PFM surveyors will be encouraged to maintain high quality service standard, plan forward and keep up with high-technology knowledge which can be applied in their practices. With more young graduates and new programmes in our field, we are optimistic that more young people will join our profession in the near future.

### 1. LOCAL AFFAIRS

#### 1.1 Participation in VTC Programme Revalidation Exercise of Engineering Discipline (22/4/2020)

Our Vice-Chairman Sr Amelia Fok was invited by Vocation Training Council (VTC) to participate in the Programme Revalidation Exercise (PRE) of Engineering Discipline as an external member of the revalidation panel. Due to the outbreak of COVID-19, the PRE was held at IVE Tsing Yi Campus on 22 April 2020 with a combination of face-to-face and online meetings.

The PRE aims for the continuous improvement under VTC's quality assurance system, as an additional platform to receive impartial and external views from industry practitioners / academics and internal academic staff. The revalidation process includes an intensive examination of the rationale(s) behind the programme offering and programme details, as well as the organisation, quality management and implementation of the programme, the adequacy of estimated resources, student performance, graduates and employers' feedback and other related issues.

During the revalidation exercise, Sr Fok provided views and comments on programme strategy and course contents (under construction discipline), particularly in surveying related areas.

#### 1.2 Accreditation of THEi BSc (Hons) in Surveying

In 2016, HKIS provisionally approved THEi BSc (Hons) in Surveying as a cognate degree programme for a maximum period of 4 years. In March 2020, THEi applied for full accreditation of their programme. The HKIS General Council accepted the Board of Education's recommendation to grant a full accreditation to the programme. Year 1 intakes of the programme from 2016/17 to 2019/20 will be considered as satisfying the minimum academic qualification for admission to the APC Scheme of BSD, GPD, PFMD, QSD and PDD, depending on the streams of the programme that the students take.

### **6.3 Assessment of Professional Competence (15, 23 & 24 September 2020)**

In response to the COVID-19 pandemic, QSD Divisional Education Committee (DEC) has taken extreme caution in arranging the Assessment of Practical Competency (APC). Part 1, Part 2 (paper 1) and Part 2 (paper 3) of the APC were successfully held on 15, 23 and 24 September 2020 respectively at Kowloonbay International Trade & Exhibition Centre. In order to maintain a proper distance among candidates, we reserved 2 rotunda for Part 1 of the APC and 2 rotundas and a Star Hall for Part 2 of the APC. Each of the seating was furnished with an acrylic dividing board and access controls with body temperature sensors in place at the venues.

It was no easy task to arrange the APC during the pandemic. I want to express my heartfelt thanks for QSD DEC and the HKIS Secretariat's effort to make it happen in the face of unprecedented challenges. We aimed at conducting the APC interviews in December, and continued to closely monitor the epidemic situation and review the arrangement of the APC interviews.

**「疫」境自強搵筍工**

抗疫是持久戰！當社會普遍出現抗戰疲勞之際，筆者於今期專欄跟大家分享一所有關職場的正置消息，希望為上班族及年輕人打打气。

筆者曾親身經歷過經濟好景時，有些工程是不受影響的，這類「紅工」包括工程及工料買賣。筆者日前應邀到香港測量師學會工料測量專業課程主理人 Raymond Kong 及 Vincent Ho 兩位師傅的講座 (Sunny)，所得的訊息均令人鼓舞。

江師傅表示，雖然這場疫情打擊各行各業，但房屋業發展與數字亦較穩定，雖然樓宇中的物業項目步向減價，但估價情況只是短期性的，待樓宇開工後，可重新修正完。只是香港經濟的復甦正當，興建物業息息相關的工料測量專業的發展前景絕對不比其它行業遜色。

吳師傅說：「工料測量專業發展空間，每天對 Excel 和估價軟件，工作時除量心，還需外交技巧與耐性，就於今年面對疫情，各發展商、建築商以及政府仍熱誠聘請不少工料測量系的畢業生，因此，多年來工料測量的學位高回報課程，於各大

## 9. MODULAR INTEGRATED CONSTRUCTION (MiC)

### 9.1 Visit to Lei Yue Mun Park Temporary Quarantine Camps (4/5/2020)

HKIS Past President and QSD Past Chairman Sr Thomas Ho, HKIS Past President Sr Vincent Ho, HKIS Vice-President and QSD Past Chairman Sr Paul Wong, QSD Past Chairman Sr Keith Yim, QSD Council Member Sr Jim Chark, Sr Sunny Wong, BSD Past Chairman Sr Kenny Tse, BSD Chairman Sr Billy Wong, BSD Member Sr Nathan Lee visited the Temporary Quarantine Camps at Lei Yue Mun Park on 4 May 2020, who were received by Mrs Sylvia Lam, JP, Director of Architectural Services Department, Ms Winnie Ho, Deputy Director of Architectural Services Department, and their team.

The site is located within the existing Lei Yue Mun Park and Holiday Village at Chai Wan District on Hong Kong Island. The Temporary Quarantine Camp consists of two sites. Site A was built on an existing basketball court with 118 units and Site B was built on an existing football field with 234 units. The whole development includes construction of road works, utilities and sewerage connections as well as the quarantine units.

The Government decided in early February to add new quarantine units on the vacant land in the Village, in view of the development of the epidemic, the method of fast track Modular Integrated Construction (MiC) was adopted. The part for Site A commenced on 3 February 2020 and completed on 27 February. This project solicited operations and collaborative efforts from the Development Bureau (DevB), Architectural Services Department (ArchSD), Civil Engineering and Development Department (CEDD), Transport Department and the contractor. The construction team managed to complete the works for Site A in just 25 calendar days and handed the facilities to the Food and Health Bureau subsequently. We were also briefed that the Temporary Quarantine Camp facilities may be transformed to transitional housing afterwards.

## 9.2 Visit to Penny's Bay Temporary Quarantine Camps (29/4/2020)

On 29 April 2020, Sr Amelia Fok, Sr Sunny Choi (QSD Vice-Chairmen), Sr Thomas Ho (HKIS Past President, QSD Past Chairman), Sr Raymond Kam (HKIS Honorary Secretary, QSD Past Chairman), Sr Dr Paul Ho (QSD Past Chairman), Sr KC Tang (QSD Co-opted member) Sr Billy Wong (BSD Chairman), Sr Kenneth Yun (BSD Past Chairman) and I visited Penny's Bay Temporary Quarantine Camps. We were received by Ir Aaron Bok, the Head of Civil Engineering Office of CEDD and his team.

The site is in a virgin land adjacent to a vacant plot reserved for the future expansion development of the Hong Kong Disneyland. This HK\$194 million contract was under fast track procurement method, with contract awarded on 17 February 2020 for the site formation of 7 hectares of land, formation of roads network, utilities and sewerage connection, and construction of 100 number of MiC Quarantine Units as well as the supporting facilities including Medical Post, Command Post, Police and Services Quarters.

Time is really of the essence for this project. By adopting MiC approach with operations round in 24/7 and the collaborative efforts among DevB, ArchSD, CEDD and the Contractor, the construction team managed to complete the works in just 68 calendar days and handed the facilities to Food and Health Bureau on 29 April 2020. There will be 700 more MiC Quarantine Units to be provided on this site in the coming months under separate contracts.

## 10. CONCLUSIONS

2020 has been a challenging year for our members and the QSD Council. After a year of social unrest, the pandemic further aggravated the situation. The QSD Council had to be more agile in adapting to the new normal.

During the pandemic period, we still managed to maintain essential activities in respect of the connections with its members, training for probationers and associate members, continuous professional development of its members and its external collaborations and liaisons with other local and overseas professional bodies.

In particular, QSD has provided opportunities for the young members to participate in PAQS and ICEC to get in touch with the development of the quantity surveying profession in other countries or regions.

My heartfelt thanks go to all outgoing Council members for their support and valuable advices, without which the QSD would not have been able to accomplish its targets in the Council Year 2019/20. I would also like to thank all the members for their support to the QSD, and I wish our members will continue to support the QSD in the next Council Year 2020/21.

## YSG Social Services Sub-Committee

Second half of year 2019 was a difficult time for many Hong Kong people. In view of the intense social atmosphere, YSG decided to set up a Social Services sub-committee to bring some positive spirit to the society.

This sub-committee is dedicated to promoting volunteerism. The objective is for the members to get in touch with the needy in the society, to understand their difficulties and offer help. By establishing a platform linking up our members with those who are in need, we wish to enhance our members' awareness of the unprivileged and encourage them to participate in various volunteer services.

Two events were completed in spite of the tough situation in 2020. We co-organised with BSD volunteer team to repack facial masks and sanitary items for further distribution to the street

cleaning workers in view of COVID-19 pandemic. Through this meaningful event, not only could we show our care to the society, but also increase the participants' sense of belonging to YSG.

The YSG Social Services Sub-Committee also participated in the "Together We Plant" Volunteer Greening Day organised by the Agency for Volunteers Service on 4 July 2020. It was one of the events within the "Country Parks Plantation Enrichment Programme", which was initiated by the Agriculture, Fisheries and Conservation Department to increase biodiversity and ecological value of exotic plantations in country parks.

Thanks for the effort made by the co-conveners Sr Yoyo Li and Sr Tracy Wong for leading this new initiative and thanks to all participants for these two events. I wish to see our members to involve in more social services in the future.

## YSG Sports Sub-Committee

Sports Sub-Committee is another new initiative this year that aimed to enhance the member's interpersonal relationship and promote a healthy lifestyle to our members. Although we were not able to hold any sports events this year due to the pandemic, a proposal for a badminton competition as a pilot activity was developed by Sr Sunny Wong and Patrick Fan, which was a very good start. By organising more recreational and sports event, we hoped our members can develop their social network and maintain a good habit of exercising.

## YSG Annual Dinner

The YSG Annual Dinner 2020 was postponed for a few times and has been scheduled to be held in March 2021 tentatively. Thanks for the effort and creativity of the Annual Dinner Organizing Committee. The OC made a tremendous effort in selecting the best venue for us and developed an attractive theme for the dinner. I would also like to express my sincerest gratitude to the university student representatives who actively participated in the planning and preparation of the YSG Annual Dinner 2020. I wish you all a very successful event in March 2021.

## YSG Promotion Programme

The promotion programme which aimed at providing creative and educational events for secondary school students was another new initiative in YSG and HKIS. Led by Sr Kitty Ng and Sr Sunny Wong, and supported by most of the committee members and co-opted members, a well-balanced, feasible and enlightening framework was developed for the promotion programme. Although we were unable to put forward and execute the programme, I am happy to see that so many committee members and new joiners were bonded and worked closely together for this new initiative.

## Other Events

Due to the pandemic, many of our plans such as dragon boat, team building event, drinks and tastings, social events, sports event, etc could not be executed. However, I believe the effort made by the committee would not be wasted. The experience and friendship we gained, the time we spent and enjoyed, the valuable opportunities for us to work together and come to know each other were most important.

## Acknowledgements

I would like to take this opportunity to thank my fellow committee members, co-opted members and university student representatives for their selfless dedication of time and effort, their help in the committee's internal and external affairs, and attending numerous after-work meetings. I would like to thank our members for their ongoing support. I am pleased with the show of commitment exhibited by you all in helping us steer the affairs of YSG to date.

## Assessment of Professional Competence (APC)

In the calendar year of 2020, there were 489 new APC candidates (169 BS, 75 GP, 34 LS, 206 QS, 3 PD and 2 PFM), representing a decrease of 10% over the 2019 figure of 542 candidates (161 BS, 68 GP, 27 LS, 277 QS, 4 PD and 5 PFM).

There were 483 BS, 75 GP, 39 LS, 560 QS, 4 PD and 6 PFM Assessors participating in the APC assessments in 2020. The full lists of Divisional Panel of Assessors are available in the Annexes. The BOE wishes to appreciate the contributions of all the Assessors in maintaining the professional standard of the new surveyors.

In order to help APC candidates better prepare themselves for the assessments, the Divisions, often in collaboration with the Young Surveyors Group, organised training programmes, which were well received by the candidates.

The May Practical Task of BSD had been deferred to October 2020 due to the outbreak of the COVID-19 pandemic. The October Practical Task was undertaken during the period from 14 to 17 October 2020 with the involvement of 93 assessors and moderators. A total of 64 candidates attempted the Professional Assignment and 31 (48%) passed. The Part I and Part II Written Assessments of QSD had been re-scheduled for the prevention of possible spread of COVID-19 disease. The re-scheduled Part I Written Assessment was held on 15 September 2020. 221 out of 273 candidates (78%) passed the written assessment. ## Sponsorship for writing textbooks

The BOE allocated funding in producing textbooks on local topics for the surveying practitioners and students. Academics of local universities and the HKIS members were invited to express their interests in writing textbooks on local practice. Four applications were approved by the BOE and the sponsorship details are as follows:-

Authors	Book Title
Sr Roger Nissim	The Place Makers of Hong Kong - Introduction and Definition for Hong Kong
Cr Dr Daniel W M Chan and Dr Timothy O Olawumi	Sustainability Practices and BIM in the Built Environment – Trends, Adoption and Green Building Assessment
Sr Leung Koon Kee Anthony SBS JP	Managing Knowledge in Construction and Real Estate
Sr Wong Yung Shing	Advanced Valuation Practice & Principles For Property Valuation Surveyors in Hong Kong

## Accreditation exercise

Accreditation of surveying courses continued to be pursued in accordance with the approved HKIS Course Accreditation Manual 2012. During the year, the BOE granted accreditation to the following programme:-

The BSc (Hons) in Surveying of the Technological and Higher Education Institute of Hong Kong (THEi) has been approved as a cognate degree under BSD, GPD, PFMD, QSD and PDD for admission to the APC Scheme, subject to the compliance with the Course Accreditation Manual. The approval shall apply to the said programme with students of Year 1 entrants from 2016/17 to 2019/20. It shall not cover the direct intake of Year 3 students with advanced standing.

The BOE is currently processing the accreditation applications of the following programmes:-

- (i) MSc in Conservation and Postgraduate Diploma in Conservation, the University of Hong Kong for PDD
- (ii) Restructured BSc/HD Programmes in Land Surveying and Geo-Informatics, the Hong Kong Polytechnic University
- (iii) Re-accreditation of BSc (Hons) Surveying (Year 1 intakes 2020/21 – 2024/25), the Technological and Higher Education Institute of Hong Kong (THEi) for BSD, GPD, QSD, PDD & PFMD
- (iv) Accreditation of BSc (Hons) Surveying (Year 3 intakes 2016/17 – 2024/25), the Technological and Higher Education Institute of Hong Kong (THEi) for BSD, GPD, QSD, PDD & PFMD

The accreditation panels would consider the respective accreditation applications and submit recommendation to the BOE for consideration. The results will be announced in 2021.

## Special Assessment Arrangement during the outbreak of COVID-19

Most universities deliver lectures online or in a mixed mode of online classes and face-to-face teaching if situation warrants during the outbreak of COVID-19. The BOE acknowledges the special assessment arrangement in respect of the surveying programmes accredited by HKIS and there were no negative comments nor major concerns on the arrangement under the epidemic as long as the course curriculums were not affected.

## **Task force to review the Overseas Academic Qualifications for Probationer Membership of HKIS**

The BOE will form a task force to review the Overseas Academic Qualifications for Probationer Membership of HKIS. The review paper intends to revise the admission requirements for distance learning and bridging programmes where appropriate.

2020 was a busy and challenging year for the members of BOE, Divisional Education Committees, and the Divisional Panel of Assessors. The arrangement and preparation of APC assessments had become more complicated with the substantial increased number of candidates in recent years and the additional implementation of precautionary measures under the COVID-19 pandemic since 2020. The APC assessments were conducted successfully under strict adherence to the social distancing measures required by the government. I would like to take this opportunity to convey my heartfelt thanks to all assessors and administrative staff who have offered their unfailing supports and contributions to the Institute and the surveying profession in spite of the COVID-19 pandemic. Thank you very much for your dedicated service!

<b>YSG</b>	Sr Wilson Ko Tak Yan (BS) Sr Patrick Leung Chin Pak (PFM)	

In order to provide timely response to membership applications, the Board continued to hold bi-monthly meetings. Because of the COVID-19 pandemic, the meetings in May, July and September were held via Zoom. Notwithstanding, the continued dedications of the Divisional Membership Committees and the YSG Membership Committee are deeply appreciated, for without which, the Board could not have functioned so efficiently. The Divisional and YSG Membership Committees comprised the Divisional and YSG representatives to the Board and co-opted committee members and assessors for the vetting of applications and assessment interviews with the applicants when required.

During the session year, the statistics of membership applications processed are as follow:

<b>Applications</b>	<b>BSD</b>	<b>GPD</b>	<b>LSD</b>	<b>PDD</b>	<b>PFMD</b>	<b>QSD</b>	<b>Total</b>

There have been more reciprocity agreements entered into between Divisions and their counterparts in sister professional bodies in the past two years, and the processing of applications for membership via reciprocity has continued.

The above statistics refer only to the number of applications processed during the year and does not reflect the actual changes to the membership base of the Institute. It should be noted that applicants may migrate from one membership grade or category to another. For full details of all members, readers should refer to the Membership Registers kept by the Honorary Secretary in accordance with Bye-law 2.1 of the HKIS Constitution.

Pursuance to Bye-law 2.5.2, the restriction of Probationer membership to 8 years continued to be enforced administratively. Probationers with over 8 years of membership but still in the process of pursuing the APC will have their membership extended further for a year subject to the approval of the General Council. This arrangement has been working well and the membership statistics may be rationalised to reflect the legitimate status of surveyors-in-training.

During the session year, the statistics of the changes of probationer membership are as follow:

<b>Probationers</b>	<b>BSD</b>	<b>GPD</b>	<b>LSD</b>	<b>PDD</b>	<b>PFMD</b>	<b>QSD</b>	<b>Total</b>
<i>Applications for extension</i>	43	15	14		5	251	328
<i>Rejected</i>	10	1					11
<i>Approved</i>	33	14	14		5	251	317
<i>Withdrawal</i>	3		1			6	10

During the current session, BOM conducted a Review on Technical Grade Membership. EGM had rejected a proposal to open up the relevant academic qualification requirements for entry to technical grade membership and members-at-large did not favour any previously suggested membership by experience. BOM concluded that, as there was no way to substantially increase the membership base of Associate Members and to promote their status, we could only let the technical grade of membership take its natural course as far as the Bye-laws could allow. As for the current Associate Members, BOM could only encourage the Divisions to help them progress to full professional membership if practicable.

During the current session, BOM also conducted a Review on Student Membership. It is provided in Bye-law 2.5.8 that "No person shall remain as a Student if he becomes eligible for admission as a Probationer". BOM confirmed that students will become eligible upon graduation but however noted that in many cases, graduates may not be able to secure training employment before their current student membership expires. BOM proposed and General Council agreed in principle that an ex-gratia renewal of student membership for one more year should be allowed so that the students may smoothly upgrade to probationers. For any graduate who is not admitted as a probationer within the one-off ex-gratia renewal of membership for one more year, his student membership will then be terminated. This arrangement will become effective starting from the membership renewal next year.

All professional and technical members are required to engage themselves in continuous enhancement of their expertise and enrichment of their specialist knowledge base. It is only with consistently high and ever-improving professional competence of its members that the Institute can strengthen its leading role in the local real estate and construction sector.

In Year 2020, a total of 206 CPD events were organised by various Divisions and the Young Surveyors Group (YSG) of the HKIS, representing a decrease of 18% as compared with 252 events in the previous year. Most CPD events were switched from face-to-face to online mode due to the COVID-19 pandemic. The online mode of delivery has been successful and the HKIS was able to stay on track with the CPD schedule. With the use of the online platform, ZOOM, registration for CPD events was increased to a maximum of around 500 persons for each event. We have recorded a 56% increase in the overall registration from 2019 to 2020 which was a substantial growth. The CPD events on Zoom were easily accessible by members in Hong Kong as well as overseas. About 1,000 members in Hong Kong attended the Mainland CPD events in 2020.

## Enhancement works for online registration system

The upgrade of the online CPD registration system is to reduce the excessive administration work as a result of the overwhelming subscriptions of online CPD events. The upgrade works commenced in late 2020 and are expected to complete in 2021. The Board will closely monitor the progress of the upgrade works and will ensure timely deliverables from the vendor.

## Mandatory CPD requirements checking 2016 – 2018

To maintain the professionalism of our members and to preserve the confidence of the public to the surveying profession, each member must comply with the Guidance Notes for Mandatory Continuing Professional Development (June 2007) and complete a minimum requirement of 60 CPD hours over a three-year period.

The 4th Mandatory CPD checking exercise for the period between 1 January 2016 and 31 December 2018 was conducted in 2019. 2% of members were selected by computer and were requested to submit their CPD records to demonstrate compliance with the requirement. About 64% of the selected members fulfilled the Mandatory CPD requirements. Members who could not fulfill the Mandatory CPD requirements in this checking exercise will be required to submit CPD records for the next Mandatory CPD checking to be held in 2021.

It had been a challenging year. I would like to take this opportunity to thank all the BoPD Members, the CPD organisers and the helpers for their valuable inputs and participation. Without your participation and dedication, we would not have accomplished such achievements in Year 2020.
